

BOOST YOUR ROI WITH TITAN CLOUD SOFTWARE'S FUEL SOLUTIONS

As a fuel retailer, you need to know exactly what's going on in your forecourt. With FuelCloud, you can do just that.

By leveraging a fuel management solution, you can drive profitability by auditing every drop with confidence, reduce your risk of releases, fines and runouts with continuous tank monitoring and carrier management, and improve your customers' experience with increased uptime.

Case studies with two Titan customers showed clear results:

Big Oil client saw a lift in sales from **2.4%** to **2.9%**

C-Store client saw reduced fuel loss from **306K** gallons to **37K**

C-Store client increased sales by **269K** gallons/month, an **87%** improvement
