Different licenses for different roles

Dynamics 365 Business Central Subscription License Types

Full users - Users whose work requires use of the feature rich business applications functionality. Examples of full users are sales people, customer service representatives, finance employees, controllers and supply chain managers.

Additional users - Often represents a significant percentage of users in an organization and may consume data or reports from line of business systems, complete light tasks like time or expense entry and HR record updates or be heavier users of the system, but not require full user capabilities.

Full User License

Additional User License

Essentials

For companies that need sophisticated processes yet simple enough to be maanged in one solution across finance, opportunity-, supply chain-, and project management or via micro-vertical apps.

Premium

An end-to-end cloud business management–adding key functionality for manufacturing and service order management.

Team Member

To drive adoption of the solution across users–approve Time & Expense, read business reports, lookup customer and inventory data.

We move as fast as you can: Rapid Deploy implementation

Interested in starting your new business solution now? Columbus offers Rapid Deploy implementation packages for Dynamics 365 Business Central with a goal to be at Proof of Delivery (PoD) in as little as 8 weeks from subscription submission based on the selected package.

After you have gone through the process of Rapid Implementation and PoD, we follow Microsoft's SureStep methodology to provide project managment discipline and field-tested best practices.
We look closely at analysis, design, implementation, and training as an effective strategy in getting your solution up and running as quickly and efficiently as possible.
