

Transforming Cancer Care

Comprehensive, up-to-date digital library
of evidence-based treatment regimens and cancer research
for informed treatment decisions

4,300+

Evidence-based treatment
regimens that cover
all cancers and
cancer subtypes

7,900+

Active, federally-registered
clinical trials

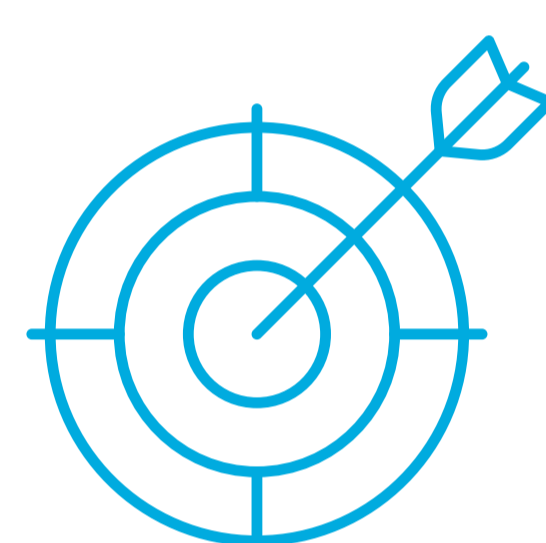

Each regimen in the library shows:

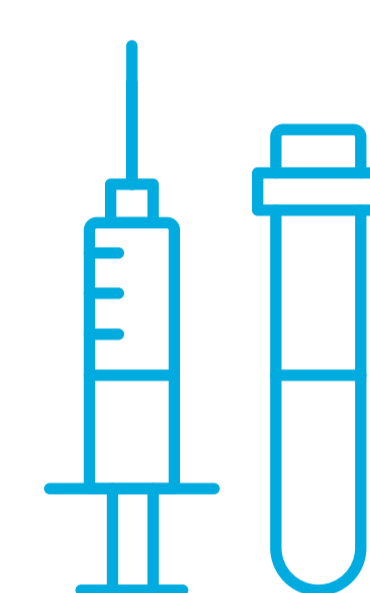

Treatment costs

Expected clinical
outcomes

Efficacy

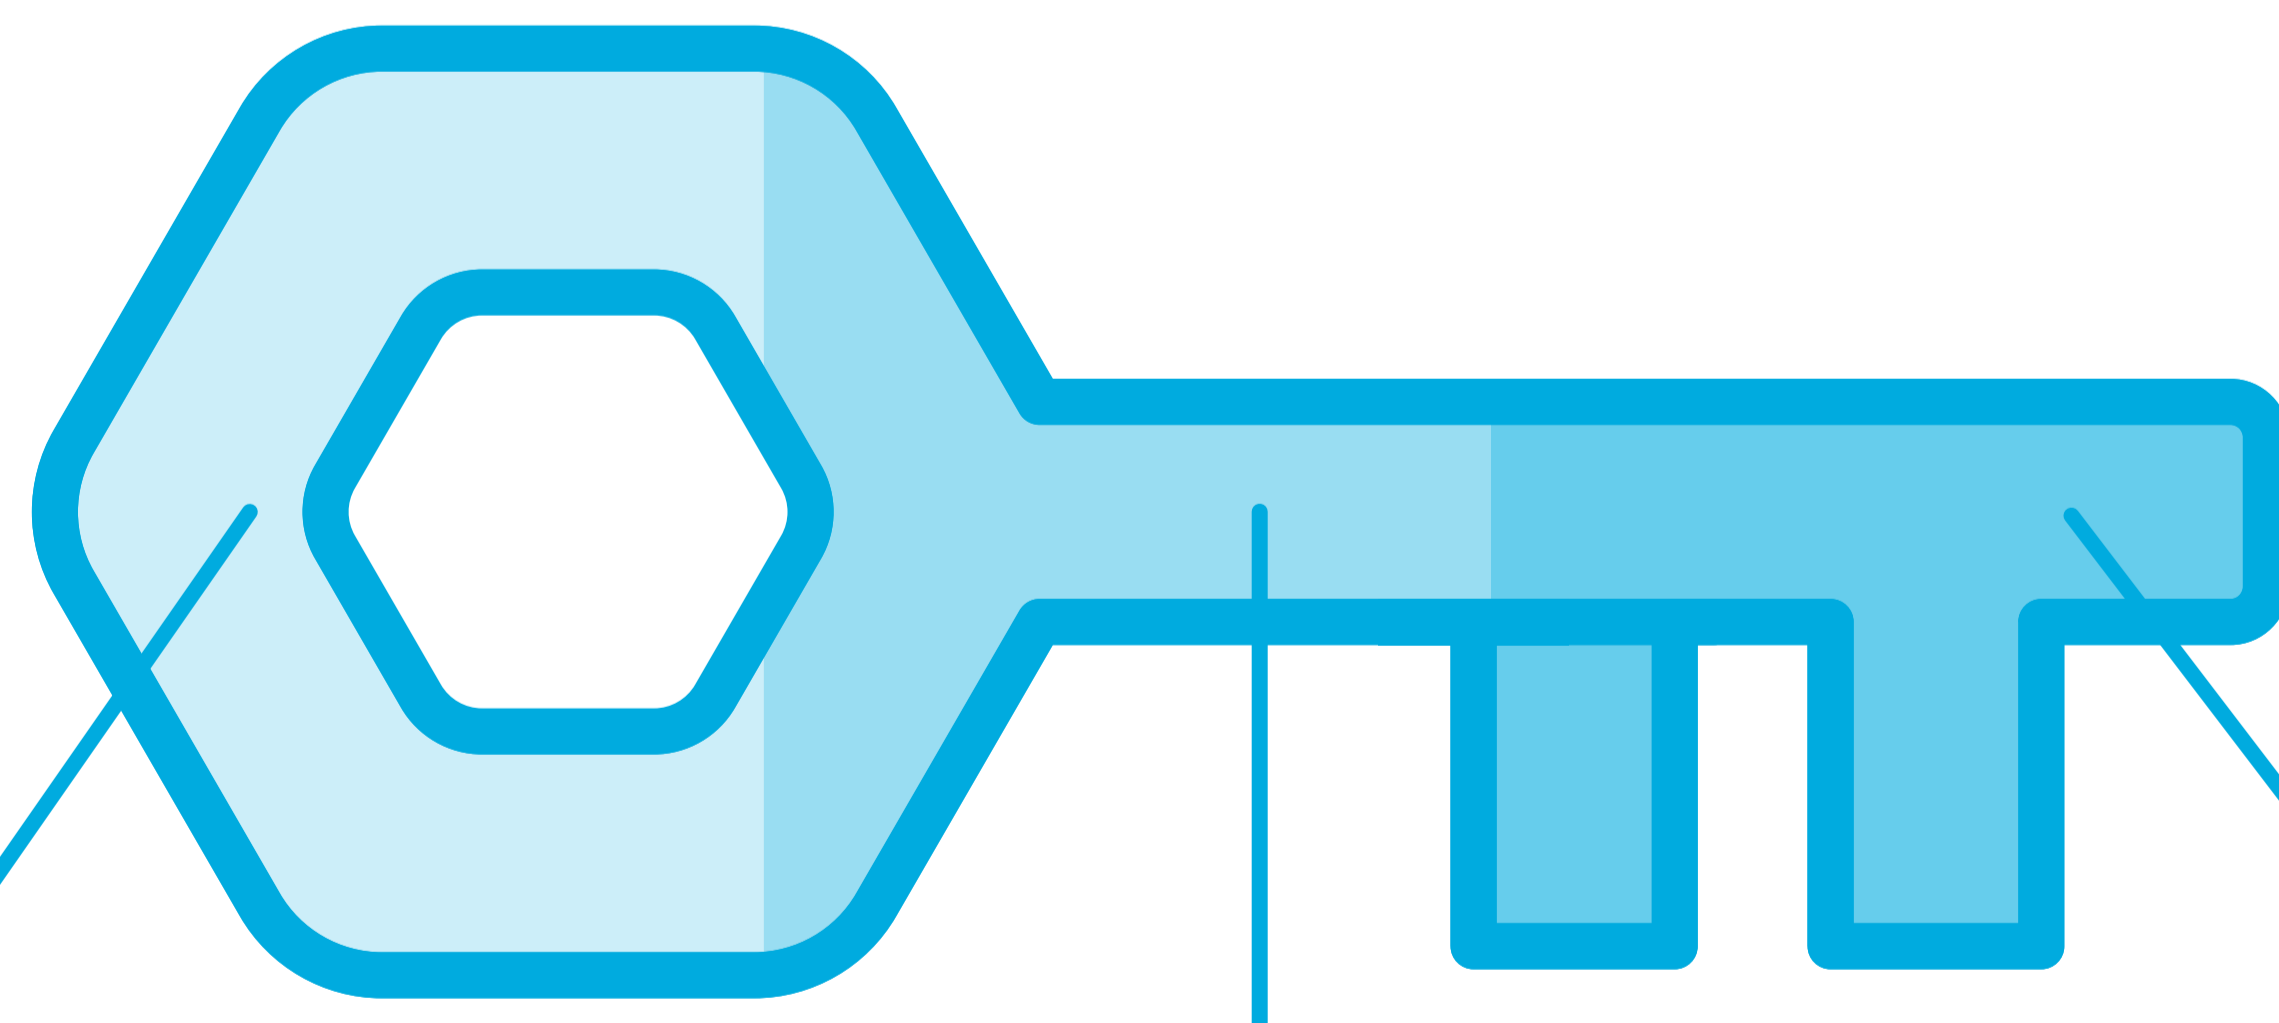

Toxicities

Regimens are supported by one or more of the following organizations:

- NCCN Compendium
- National Cancer Institute [NCI]
- National Comprehensive Cancer Network [NCCN] Guidelines
- American Society of Clinical Oncology [ASCO]
- US Food and Drug Administration [FDA]
- American Society of Hematology [ASH]
- American Society for Therapeutic Radiology and Oncology [ASTRO]
- American College of Radiology [ACR]
- Other recognized professional societies

Minimum Requirements for Inclusion in the Library:

1. The treatment must be recommended by one of the nationally/internationally recognized oncology consensus group organizations.

2. Data from the supporting clinical trial must be available. For recommended or endorsed treatments that do not have diagnosis-specific clinical trial support, data may be extrapolated from closely-related clinical studies.

3. Each individual drug within the regimen must be FDA approved for marketing in the US, meaning the drugs are not experimental.
