

Pumpkin Pie Garland

Supplies

- 1 rectangle orange felt
- 2 rectangles tan felt
- 6-foot length of twine
- 6 white pom poms
- Hot glue

Instructions

Cut the orange felt in half lengthwise, then cut one half into 6 triangles, each measuring $3\frac{1}{2}$ inches across and $4\frac{1}{2}$ inches long.

Using the orange felt triangles as a guide, cut tan felt triangles of the same size, but extending an extra $\frac{3}{4}$ inch at the top to create the crust.

Use hot glue to secure the orange felt to the tan felt, leaving the bottom points aligned.

Starting one foot in from the end of the twine, hot glue the twine to the crust of the first piece of pie. Continue with the rest of the pieces of pie, leaving 3 inches of twine between each piece.

Cut the second piece of tan felt into 6 strips measuring 9 inches long and $\frac{3}{4}$ inches wide.

Lay a line of hot glue on top of the twine, then use your fingers to crimp (just like real pie crust!) and press the strip of tan felt onto the hot glue until covered. Trim excess felt.

Glue the pom poms to the center of the pie.

Hang up and enjoy!
