

Tim Morgan CV

Tim Morgan joined Crossley Consult in 2013 as a Director and Consultant Engineer.

He is a chartered member of the Institute of Mechanical Engineers and a UK national expert representing the BSI on various European standards committees relating to glass strength and design.

Prior to joining Crossley Consult Tim worked at Pilkington for 20 years where he held various senior technical positions including responsibility for the Planar structural glazing system.

Tim has travelled widely designing and trouble-shooting structural glass facades.
