## Build your own shed!

**Introducing HPM Better Shed Packages:**

HPM Better Sheds packages include pre-manufactured floor and wall panels, trusses, and all of the materials you'll need. If you have a basic understanding of framing and roofing, if you can handle tools and if you have a couple of buddies to lend a hand, you can quickly construct a shed that will give you extra space you need, and last a good, long time.

Our sheds are available in three standard sizes, all with 8' head clearance for plenty of storage room: 8'x8', 10'x10' and 10'x12'. All sizes can be built without a permit on any residential or agricultural-zoned lot as an accessory to an existing dwelling.
