Mi-Co Job Title	Implementation Engineer (FT / PT)	Reporting to	VP of Customer Success
Salary Range	Dependent on experience	Date	Immediate (January, 2017)

Summary & Responsibilities

Mi-Corporation is seeking to hire highly skilled software people that wish to work in the mobile solutions field and wish to interact directly with customers. If you have a technical degree and are experienced with software engineering, sales engineering, and support, we want to talk with you.

Our collaborators include government agencies, testing & inspection focused companies, top universities from around the world, national research labs, and many others. Our efforts build upon our extensive software products as well as our expertise in a variety of synergistic disciplines.

If you join our team, you will collaborate with world-class coworkers and external customers in the following ways:

- Implement customer digital mobility solutions across multiple platforms (iOS, Android, Windows)
- Deploy software applications and infrastructure that are used by people, every day, around the world, to improve the world

Qualifications

- Outstanding skills and experience with development languages such as JavaScript and .NET (C# / VB.NET)
- Ability to logically and creatively solve problems in efficient manners including using state of the art computational techniques
- Excellent database, web service, and other integration development skills
- Detailed familiarity with the operation and configuration of mobile devices (iOS, Android, Windows)
- Knowledge of best practice software test techniques and automation
- Experience with Agile (or similar) development methodologies
- A desire to interact with customers and partners to help guide their mobility deployments
- Ability to focus and prioritize across parallel tasks
- Great communication skills
- 2+ years of experience with customer facing implementations of mobile solutions
- A B.S. or M.S. in computer science or a related field with corresponding emphasis on mobility and good software development practices

About Mi-Corporation

Mi-Corporation, the mobile information and data-capture company, provides mobile solutions that optimize mission critical business processes for enterprise customers such as Eli Lilly, Sutter Health, Transport for London, the UN, the US DoT and more. Mi-Corporation's mobile forms, mobile app and analytics products support tablets, phones, and other mobile devices, and create a positive impact in the world for our customers, partners & their communities. The company is headquartered in Durham, North Carolina and has a Washington customer service center as well as a Florida sales office.
