

## Be a Mi-Forms Champion!

Over 13 years of experience implementing Mi-Forms Tablet solutions, Mi-Co has worked with a number of champions at customer organization who have played key roles in enabling Mi-Forms projects to get approved and started. Consequently such organizations have experienced benefits such as:

- A hospital department **seeing 800 more patients a year**, with the same staff!
- A State Government agency **reducing a 2 week turnaround process to 2 days** for field personnel conducting inspections
- A Clinical Trials organization **saving 50% of data-entry time and producing 100x more accurate data** for a clinical study, whilst boosting physician satisfaction

In all of these success stories and more, Mi-Forms champions have benefited personally & professionally, as well as bringing transformative efficiencies & productivity to their organizations. For instance:

- The Cardiovascular Information Systems Manager at a major healthcare organization was **promoted to become "Director of Data Integration"** following their highly successful Mi-Forms project
- A State Government employee who became an expert in Mi-Forms technology and helped his division go paperless was named **"employee of the month"** at the whole department & recognized
- A Data Configuration Specialist at a Clinical Trials organization was **promoted to "Mobile Technology Specialist"** and also enabled his organization to **win nationwide recognition** and awards as well

In each of these cases and many more, these champions played a key role in helping their organizations justify the need for the efficiencies, productivity and savings Mi-Forms technology would bring to them and assisted in getting these projects approved & started, in some cases even when it was not a planned initiative for the year. The above list shows the rich personal & professional benefits Mi-Forms champions achieve, in addition to making a big difference in their organizations.

We look forward to your support as a Mi-Forms champion and bringing similar success to your organization and to **YOU!**
