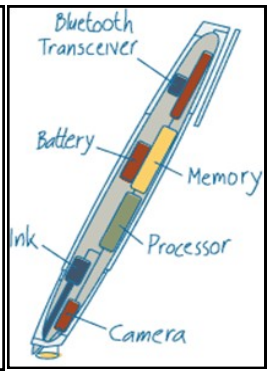
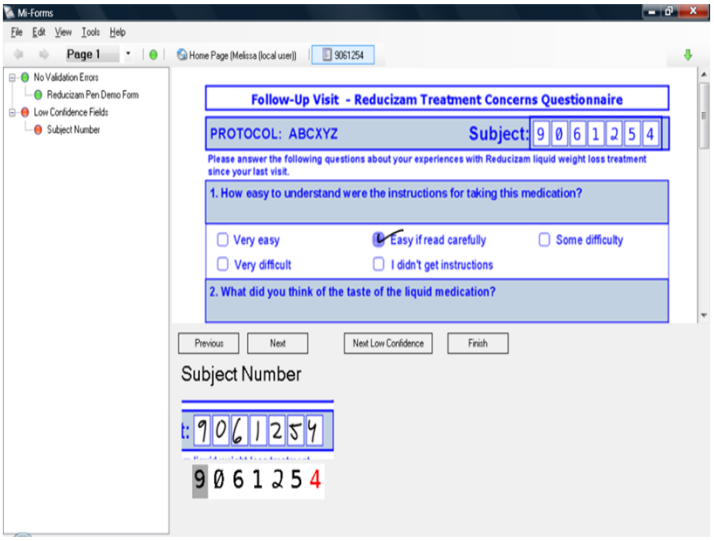
Browser-based data collection systems such as EDC still mean paper forms, with data manually entered days or weeks after collection. ***Eliminate manual data entry processes*** *with paper-like Mi-Forms, seamlessly integrated to existing systems.* ***Reduce study cost and improve availability of data.*** *For Tablet PC or Digital Pen.*

Mi-Forms



"**It's like zapping your paper form right into the database.**" *Dr. Richard E. Shaw, Director of Research, Quality and Education, CPMC Heart and Vascular Center, California Pacific Medical Center, San Francisco, Sutter Health.*

"Mi-Co's technology will make participation in clinical trials **easier and more acceptable to very busy clinicians… Much easier to use than a keyboard and mouse… and provides more accurate data** ." *Etta Pisano, MD, Vice Dean for Academic Affairs, Director Biomedical Research Imaging Center, University of North Carolina School of Medicine.*



21 CFR Part 11 Compliant * Expedited Entry of Data from Sites * Cleaner Data on First Pass
