THEATRE TOUR FILM / TV CRUISE SHIP EVENT

One System.

Moving people, equipment, scenery, and staging.

Safe. Quiet. Reliable.

Helping to tell stories, one axis at a time.

Global Scenic has partnered with Silicon Theatre Scenery, one of the World's Market Leaders in the field of automation, staging and engineering for the live entertainment industry. The enhanced capacity of the groups provides the ability to offer unrivaled technology and expertise.

With a portfolio including everything from top-tier Broadway productions like How to Succeed in Business Without Really Trying and Hand to God to the Victoria's Secret Fashion Show to NBC's Peter Pan Live, Global Scenic Services has a proven track record of quality production and design at the highest levels.

The best of the best trust Global Scenic Services to deliver.

Rugged & Reliable

Our modular system can be set up to fit your needs exactly. From basic to complex, it's easy to expand and add options later as required.

The system has been developed from standard components used in industrial automation, the AutoStage 2000 proves rugged and reliable. Continuity is assured with our system

SAFETY

Fast & Flexible

Whether it is a simple manual operation or the most complex movements, the consoles developed by STS serve both the operator and programmer. The AutoStage2000 control system is designed with the operator as the pivot, with fast and easy cuing, as well as a flexible environment. The software, multiple console options, and the hardware are designed and programmed by STS. Multiple users can simultaneously program and operate. Each user can have different levels of privileges with flexible access control.
