

- Corporation between pump experts and module experts
- Able to deliver fully compliant pump packages
- Know-how in pump engineering and system design
- Many years of oil and gas experience

- Compact
- Lightweight
- High quality European suppliers
- According to any given laws and regulations
- According to any given specifications

- Pump Engineering
- System Engineering and Packages
- Large Size / Customised Container Solutions
- Welded constructions

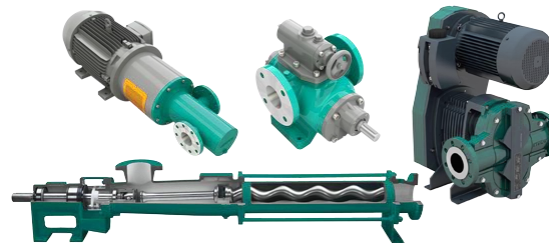

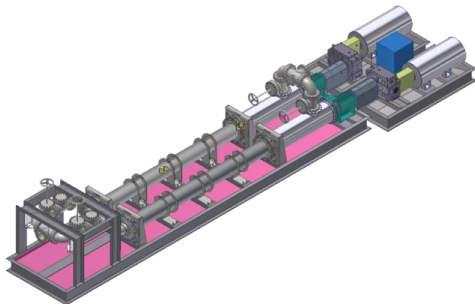

Suppliers Oil & Gas

RUHRPUMPEN API610, 674, 685

NETZSCH API674 – Positive displacement pumps

API675 – Sealless Pumps

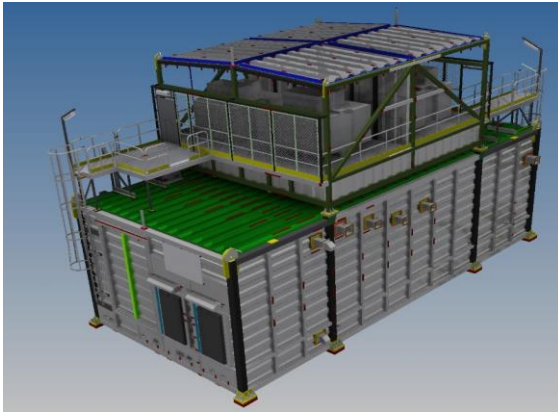

Slurry pumps

- Pump Engineering
- System Engineering
- Detailed Design
- Structures
- Welding
- Piping
- Surface Treatment / Coating / Chartek®
- Norsok / DNV / ABS requirements
- Customers requirements
- Zone requirements
- PED
- FEM – analysis
- Structure Calculations Static / Dynamic
- Blast load analysis
- Forced Ventilation
- HVAC (Heating, Ventilation, and Air Conditioning)

- Pump Packages
- Tools / Transport / Storage
- Lifting Tools
- Noise Reduction
- Weather Protection
- Fire Protection
- Modules
 - CIP
 - Power Control
 - VSD

Modules: Power Control Module

3 D drawing of complete module

Skidding upper module into workshop

Transport to Norway for outfitting

Installation of HVAC Units

Noise Reduction

Fire Protection A60

FUGLESANGS

ATC®

Tools / Transport / Storage
