Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Professional Services Schedule (PSS) Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

Labor Category Descriptions

1. MANAGER

Minimum/General Experience: 6 years of experience in project management, management reporting, task monitoring, and risk mitigation.

Functional Responsibility: Responsible for planning and executing multiple projects across business/organizations. Prepares and maintains the project schedule and budget. Prepares and delivers status reports to the customer. Acts as primary point of contact for the customer. Oversees all work and takes corrective action as necessary to ensure overall project success. Manages staffing, budget, prioritization, and other personnel matters. May serve as technical lead for the project. Responsible for coordination of the master project plan and on-time delivery of key deliverables. Ensures effective support of each unit and supporting sufficient resources to them so all dependencies are met.

Minimum Education: Bachelor's Degree or 4 years additional experience.

2. SR BUSINESS ANALYST

Minimum/General Experience: 6 years experience as a Requirements Analyst, Systems, or Business Analyst. Strong communication skills and the ability to work directly with customers and management. Strong writing skills.

Functional Responsibility: Responsible for working with stakeholders to capture, refine, and document all requirements for the system. Experience gathering functional requirements and translating business needs into technical requirements. Experience in analyzing and defining requirements to ensure they are complete, accurate, unambiguous, and feasible. Also responsible for maintaining the requirements through the complete lifecycle of the project and working with various team members to ensure the requirements are complete and properly implemented. Accurately identifies and manages stakeholder needs. Demonstrates experience in leading requirements gathering/definition sessions with clients and stakeholders. Prioritizes requirement needs in conjunction with development staff and project manager. Demonstrates modeling use-case requirements and activity flows or workflow sequence diagrams using UML. Defines requirement management processes and identifies opportunities for process/quality improvements; follows through with implementation and dissemination of improvements.

Minimum Education: Bachelor's Degree or 4 years additional experience.

3. SR BPR ANALYST

Minimum/General Experience: 6 years of organizational behavior and/or organizational development experience providing consulting to senior managers or executives on company-wide strategy implementation; significant project-related analytical experience.

Functional Responsibilities: Provide technical leadership for Business Process Reengineering projects and overall management for specific task orders. Develop specifications. Identify best practices and develop methodologies for change management and process reengineering. Create process, activity, and data models. Develop and promote improved business management systems processes, methods, and practices. Contribute to process modernization projects. Perform requirements analyses and reverse engineering. Refine and implement information-engineering projects using CASE and IE tools and methods. Analyze business practices and functions to support enterprise-wide strategic systems planning. Apply reengineering disciplines to the development of migration strategies. Study, analyze, and evaluate business management systems. Facilitate Joint Application Development (JAD) sessions and conducts formal workshops.

Minimum Education: Bachelor's Degree or 4 years additional experience.

4. TECHNICAL WRITER

Minimum/General Experience: Minimum of 4 years experience developing, formatting, editing and reviewing technical documentation.

Functional Responsibilities: Responsible for knowledge capture and meeting facilitation in support of rendering complete consulting services. Design, format, write, and produce technical documentation using commercial word processing and desktop publishing software. Maintain up-to-date internal documentation library. Translate technical information for users.

Minimum Education: Bachelor's Degree or 4 years additional experience.

5. SR PRINCIPAL CONSULTANT

Minimum/General Experience: 8 years experience in providing consulting services to government or commercial agencies or within an organization

Functional Responsibility: Works independently on complex problems. Consults with client to define need or problem, conducts studies and surveys to obtain data, and analyzes data to advise on or recommend solution, utilizing knowledge of theory, principles, or technology of specific discipline or field of specialization: Consults with client to ascertain and define need or problem area, and determine scope of investigation required to obtain solution. Conducts study or survey on need or problem to obtain data required for solution. Analyzes data to determine solution, such as installation of alternate methods and procedures, changes in processing methods and practices or redesign of products or services. Advises client on alternate methods of solving need or problem, or recommends specific solution.

Minimum Education: Master's Degree or 6 years additional experience

6. PRINCIPAL CONSULTANT

Minimum/General Experience: 6 years experience in providing consulting services to government or commercial agencies or within an organization

Functional Responsibility: Works independently on complex problems. Consults with client to define need or problem, conducts studies and surveys to obtain data, and analyzes data to advise on or recommend solution, utilizing knowledge of theory, principles, or technology of specific discipline or field of specialization: Consults with client to ascertain and define need or problem area, and determine scope of investigation required to obtain solution. Conducts study or survey on need or problem to obtain data required for solution. Analyzes data to determine solution, such as installation of alternate methods and procedures, changes in processing methods and practices or redesign of products or services. Advises client on alternate methods of solving need or problem, or recommends specific solution.

Minimum Education: Bachelor's Degree or 4 years additional experience.

7. JR ANALYST
