XCELERATOR® PLUS

Xcelerator carbonless sheets are specially formulated for demanding digital print applications. They are ideal for multi-part forms on the copier or when printing with static information on offset equipment and variable data on digital.

Xcelerator Snap-Set®. Our pre-perforated, pre-collated forms are perfed a half inch from the top edge or side, eliminating the need for a separate operation. Mill perforations are available in both long- and short-grain configurations for maximum flexibility on any job.
