## MAIL PROTECTION SERVICE CLOUD FOR HOSTED ENTERPRISES

**MPS is an Email Security and Control Service**  
on a secure, geo redundant cloud, seamlessly communicating with any email messaging platform. Setup is as simple as restricting your SMTP traffic to MPS cloud, and redirecting your DNS MX Records.

### MPS CHARACTERISTICS

#### **AnubisNetworks Global Threat Intelligence Platform**

AnubisNetworks' security ecosystem permanently monitors the world for Botnets, IP Reputation, Email phishing and Malware campaigns, and communicates with MPS edge filters, for real time proactive malware prevention.

#### **Control Features on top of Security Features**

DLP (Data Leakage Protection), Quota Management, Rate control, Email Validation, transport Encryption and many other features are available per user and per scope, taking this platform far beyond Email Security.

#### **Complete Visibility on your platform**

Complete details on messages and queues for inbound and outbound flows. MPS also contains several dashboard data, system auditing, business information tools, each feature configurable by scope and data.

#### **Lean Management of Quarantine**

Quarantine can be managed by IT and/or end users, in a centralized console, with the option of web end user interface and/or email interface (via periodic digests).

#### **Hierarchic Multitenant System for Inbound and Outbound**

An advanced architecture with several administration scopes (Virtual scopes, SMTP domains and LDAP based Organizational units), each with distinct roles – including Helpdesk users - for both centralized and delegated management.

#### **Email Secure Routing and Virtual Aliases**

MPS brings a new dimension to email routing management by enabling the usage of BCC, Email Queue holding, Distribution lists, Virtual Aliases, and Listeners based routing. E-mail is verified for SPF, TLS and DKIM encryption mechanisms.

### MAIN BENEFITS FOR HOSTED ENTERPRISES

#### **Reduce Your Total Cost Of Ownership**

With a transparent business model, updated for free, web services-based architecture, integration with your directories and with third party systems, this solution evolves with your users.

#### **Protect Your Investment**

With a Geo Redundant Cloud Service that scales with your business growth, and with robustness to process millions of messages per hour, MPS permanently delivers your business email traffic, regardless how overwhelming it gets.

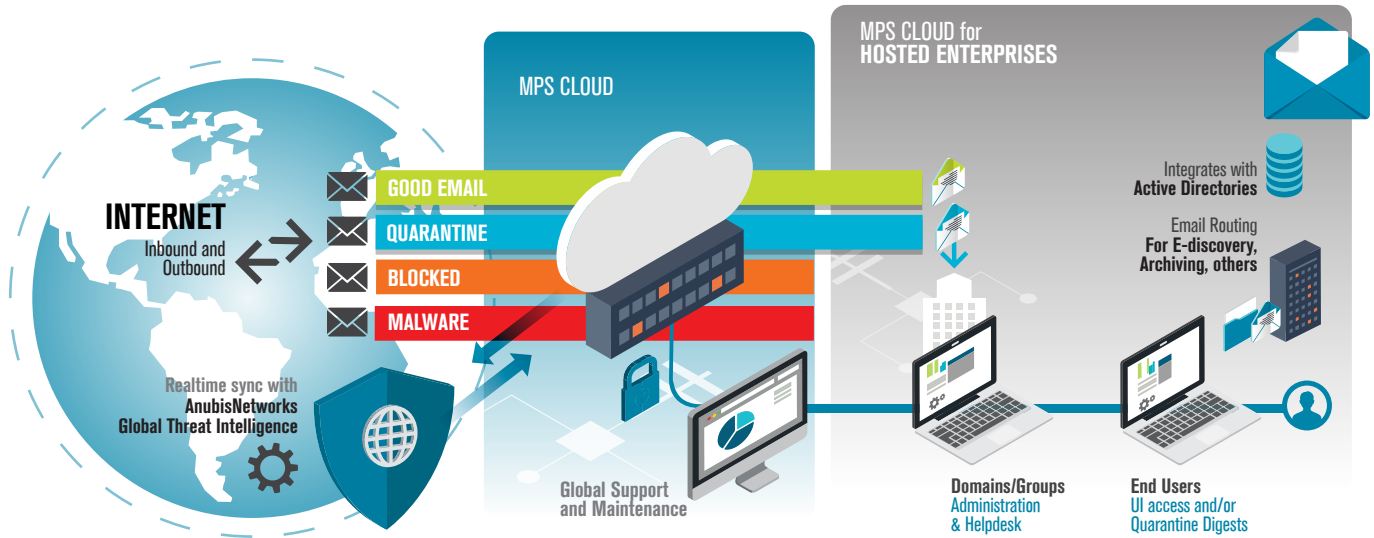

#### **Protect Your Ecosystem**

By ensuring legitimate email is received and delivered (important for reputation management), and by setting Anti-Botnet, Control and Quota management features, our solution ensures your email ecosystem is failsafe with this carrier-grade solution.

#### **Increased Productivity**

By managing your email security outside your perimeter, and by optimizing operations with Help- desk accounts, multitenant delegated management, message tracking and several easy ways to manage quarantine.

## MPS ARCHITECTURE

## MPS FEATURES

### Email Control

- ✓ DLP - Data Leakage Protection
- ✓ Multitenant Quota management
- ✓ White & Blacklists inheritance
- ✓ Attachments Discovery
- ✓ BCC and Archiving plugins
- ✓ AD Integration for AAA

### Business Features

- ✓ Quarantine HTML digests up to per hour
- ✓ Complete Outbound Administration
- ✓ Business reporting and Usage KPIs
- ✓ Per-scope full OEM customization

### AnubisNetworks Technologies

- ✓ MPS HDB Fingerprinting
- ✓ AN MailSpike® IP Reputation
- ✓ Social Networks relationship
- ✓ Threat Intelligence for MPS

### Filtering & Security

- ✓ Real-Time reputation analysis
- ✓ Anti-Fraud enhanced phishing and spoofing detection
- ✓ Anti-Directory Harvest Attack
- ✓ Encryption layer DKIM / Sender ID / SPF verification / support
- ✓ Spam waves protection
- ✓ All Email Parts Heuristic analysis
- ✓ Sophos, ClamAV & integrates with other AVs
- ✓ Zero hour burst Detection

### Network and Integration

- ✓ SOA / Web Services
- ✓ Next hop server configuration
- ✓ Full IPv6 capable
- ✓ Syslog based log integration
- ✓ Email Spooling & Rate control
- ✓ Integrates with Google for Work and Microsoft Office 365
