

# CYBERFEED for SOCs

Cyberfeed is AnubisNetworks threat intelligence platform that allows organizations to obtain actionable and contextualized insights into security threats.

## THE NEED FOR ACTIONABLE INTELLIGENCE

SOCs need high-quality and actionable information to protect their company's network. Cyberfeed enables SOC's to leverage threat intelligence that has low false-positive rates and enriched event information. Additionally, SOC's can put this data into action through quick prioritization of issues and simple tagging of event status to streamline the remediation process. Cyberfeed easily integrates with enterprise security monitoring systems.

Cyberfeed empowers SOC's to actively monitor their environment and gain intelligence on top level performance metrics on the entire organization down to subsidiary networks.

### INFECTION DETECTION

Intelligence on infections and compromised systems.

### COMPROMISED SYSTEMS

Malware analysis of websites, files and email.

### SOCIAL AWARENESS

Monitor activity on social sites to preemptively establish new attack vectors.

### EMAIL ECOSYSTEM

Understand spam campaigns and compromised messages.

## KEY BENEFITS

Instantly identify and remediate infections on company network

Better prioritize remediation through tagging of events (new, acknowledged, archived)

Demonstrate effectiveness of security program through key performance indicators

## CONTACTS

### PORTO

Address  
UPTEC, Rua Alfredo Allen 455/461,  
Sala EC.3.12, 4200-135 Porto,  
Portugal

### LISBON

Address  
Av. D. João II, Lote 1.07.2.1, 4th Floor,  
Parque das Nações, 1998-014, Lisbon,  
Portugal

### BOSTON

Address  
125 CambridgePark Drive  
Suite 204, Cambridge, MA  
021401
