## **Ambrell to Exhibit at The Thermal Engineering Show**

***Attendees can learn more about THE LAB, see an induction demonstration and discuss heating applications***

**Cheltenham, UK** — Ambrell will exhibit at **The Thermal Engineering Show**. The conference and exhibition will be held on April 27th at the Roundhouse in Derby, UK. Representatives will be on-hand to discuss how induction heating can enhance attendees' manufacturing processes.

An Ambrell EASYHEAT™ induction heating system will be available for one-on-one demonstrations with visitors. Attendees are encouraged to bring parts and drawings to the show for discussion with booth representatives. Ambrell offers testing from THE LAB, and the conference is a great place to get the process started.

Ambrell manufactures induction heating systems ranging from 1 kW to 500 kW. More than 12,000 EASYHEAT and EKOHEAT systems have been installed in over 50 countries. Ambrell has extensive industry expertise with a broad array of applications including brazing, soldering, forging, heat treating, shrink fitting, metal-to-plastic insertion, preheating for welding and much more.

“We’re looking forward to The Thermal Engineering Show,” said Tony Mazzullo, President and CEO of Ambrell Corporation. “Ambrell is on the forefront of developing innovative heating solutions, so a conference that brings together leaders in the field of thermal engineering and processing is a perfect fit. We look forward to meeting attendees and learning how we can help enhance their processes.”
