

INTERNSHIPS

You can't beat the work education you'll get!

LEARN. CONNECT. GROW.

Systems Engineering is a leading IT strategy and managed services provider serving legal, healthcare, financial services, and government clients nationwide. Established in 1988, Systems Engineering is 100% employee-owned with offices in Portland, Maine, and Manchester, New Hampshire.

Systems Engineering's internship program sets our interns on the path to career success; offering paid internships in a variety of technical and non-technical roles within multiple departments across our organization. Interns join our program to engage in hands-on work and gain experience through:

- **Mentoring**
- **Job shadowing**
- **Client site visits**
- **Cross functional education series to learn about business, industry trends, financial drivers, and product solutions**
- **Career development opportunities, and more!**

KELLY

Summer Intern

"In my time at Systems Engineering, I felt valued. I always felt comfortable asking questions and never felt like a burden to anyone. Everyone has been eager to help, and I was impressed by both the expertise and the patience of the people I worked with. I had exposure to a wide array of projects and I definitely learned a lot!"

DAVID

Summer Intern
now Employee

This is a great company where I was able to put my IT knowledge to the test. Systems Engineering supports many clients which offers interns the opportunity to interact with and learn about different technical environments. As my internship was hands-on, I gained unique insight into the world of IT support. I also learned what great team work looks as Systems Engineering is 100% employee-owned.

BE PART OF OUR CULTURE

- **Join company sponsored sports teams (running, biking, soccer, bowling, etc.)**
- **Enjoy company-wide events including Family Sea Dogs Night, Ice Cream Social, and our Annual Summer Block Party to name just a few**
- **Connect with professionals over delicious bagels and donuts provided each Friday**

ENJOY THE BENEFITS

- **Paid internship with paid community service**
- **Paid parking (24x7 in downtown Portland)**
- **Onsite Health and Wellness Center**
- **Wellness initiatives including adjustable work stations, free health coaching, fresh fruit, healthy lunches, stretch breaks, plus more!**
