

# Industry Collaborative

## Program Description

**Industry Collaboratives** steward the design of pilot partnerships between corporate industry leaders and leading startups and emerging growth companies. The Industry Collaborative process brings together non-competitive corporate leaders along the length of a single industry value chain and facilitates cross-collaboration to produce pilot partnerships against key industry opportunity areas.

## Key Phases & Timeline

## Key Deliverables

Through the Industry Collaborative, receive stewardship and education to design and launch your custom pilot partnership. Program final engagement is delivered via an in-person Demo Day.
