Terpene Rich Full-Spectrum
Cannabis Derived Terpenes

TASTE/SCENT

WILL VARY BASED ON VARIETY

DESCRIPTION

Sira's Full Spectrum Cannabis Oil is packaged within an easy-to-use applicator for simple consumption. This fully activated oil can be enjoyed orally, used to dispense on top of a bowl, slathered on a joint paper or used to infuse into butter/ coconut oil for edibles. The Full-Spectrum Cannabis Oil is made through an ethanol extraction process that preserves cannabinoids then we add in cannabis derived terpenes to deliver you a smooth taste.

USAGE & STORAGE INFORMATION

Storage & Usage

A dry cool place, like a drawer. Keeping them cool will make them easier to handle when it comes time to consume. Avoid placing in fridge or freezer.

Top a bowl or add to joint

Apply a little bit to the top of a bowl or inside of a joint to boost flavor and potency.

Add to outside of joint and roll in kief

To really boost potency apply thin layer to the outside of a joint and using a non-stick tool evenly coat the outside. From there you can roll it in kief or bubble hash.

Cooking

You can add this concentrate to your favorite recipe, make sure to thoroughly mix though so it is homogeneously spread throughout.

Packaging

E1 Labs branded packaging. Glass syringe inside of pop-top jar.
