ABOUT ME

Indica or Indica Dominant Hybrid

Hybrid

Sativa or Sativa Dominant Hybrid

Extraction Process: Ethanol

Consistency: Brittle Crystals

TASTE/SCENT

WILL VARY BASED ON VARIETY

DESCRIPTION

Terp Crystals are a highly potent cannabis extract created through a mix of solvent and solventless extractions methods. This collaboration between our Extraction Team yields a highly potent concentrate that can be crushed up and added to your joint, used as a bowl topper, decarbed and used to bake with or enjoyed via your chosen concentrate compatible piece. Terp crystals versatility is much like our Solventless Diamond offering. Staying true to our philosophy of preserving terpenes, we retain terpenes in the Terp Crystals to give each strain their own specific profile while maintaining the high levels of THC.

USAGE & STORAGE INFORMATION

Storage & Usage

A dry cool place, like the refrigerator. Keeping them cool will make them easier to handle and help preserve terpenes

Dabbing/Wax Pen

Use your favorite dab rig or electronic rig to heat the material to consume. Also can be used in any wax pen with a kiln/coil.

Top a Bowl or Add to Joint

Terp Crystals can easily be broke up to apply on top of a bowl or inside of a joint

Cooking

Decard at 220 for ~45min and Terp Crystals ready to infuse into butter or oil

Packaging

Sira branded packaging. White palm twist child-resistant jar and slide box.
