## TASTE/SCENT

**HASH EARTHY PINE KUSH**

## DESCRIPTION

Chuck OG is a potent hybrid with a trichome-laden appearance and a diesel aroma that is a testament to its OG parents. Patients who have had success with OG Kush varieties (such as our Skywalker Kush or The OG #18) may find great results with our Chuck OG. This strain is a Sira exclusive, and comes to us through our grower's personal seed collection.

## PARENT #1: Tahoe OG

**Hybrid**

**Breeder:** Disputed

**Lineage:** OG Kush x SFV OG Kush

Tahoe OG is the perfect rainy day strain. Strong and fast-acting, you may not want to use this strain when you're planning to leave the house. A top nighttime strain, it provides an extremely lazy, heavy body sensation.

## PARENT #2: Afghani Heirloom

**Indica**

**Breeder:** Unknown

**Lineage:** Afghanistan

Unknown Afghani strain
