## DESCRIPTION

---

Original Glue (GG4), developed by GG Strains, is a potent hybrid strain that delivers heavy-handed euphoria and relaxation, leaving you feeling “glued” to the couch. Its chunky, resin-covered buds fill the room with pungent earthy and sour aromas inherited from its parent strains, Chem Sis, Sour Dubb, and Chocolate Diesel.

## PARENT #1: (Sour Dubb x Chem Sis)

---

**Sativa-Dominant Hybrid**

**Breeder:** Josey Whales

**Lineage:** Sour Dubb x Chem Sis

Bred by accident by Josey Whales from a hermed out Chem Sis plant pollinating his Sour Dubb this strain is rumored to have clear, cerebral effects with a lemon, pine, minty aroma.

## PARENT #2: Chocolate Diesel

---

**Sativa**

**Breeder:** Unknown

**Lineage:** Sour Diesel x Chocolate Trip

Chocolate Diesel is a sativa cannabis strain that brings together genetics from Sour Diesel male and Chocolate Trip (Katsu’s cut). With soaring euphoria that shoots straight to the head, Chocolate Diesel could easily be compared to a cup of coffee. Its flavors offer a little part of both parents, with notes of both earthy chocolate / skunky fuel-notes, but also smells and tastes of their own as well.
