TASTE/SCENT

BANANA DIESEL HASH SOUR

DESCRIPTION

Sour Banana Sherbet is an even hybrid bred by Crockett Family Farms. Crockett chose the (Banana OG x Sherbet) male to cross with the AJ's Sour Diesel female creating the Sour Banana Sherbet after many different crosses and attempts. The Banana OG used in the cross was created by crossing Banana Kush x OG Kush. The resulting scent and flavor is a unique blend of sour fruit and diesel fuel with notes of banana.

PARENT #1: AJ'S SOUR DIESEL

Sativa-Dominant Hybrid

Breeder: AJ

Lineage: Original Diesel x DNL

AJ's Sour Diesel is a sativa-dominant hybrid strain. These flowers smell like skunk with undertones of pine and citrus. The smoke/vapor is smooth with a slightly diesel, hash-like taste.

PARENT #2: BANANA SHERBET

Hybrid

Breeder: Crockett Family Farms

Lineage: Banana OG x Sherbet

The Banana OG used in this cross was created by crossing Banana Kush x OG Kush. Crockett Farms worked with The Cookie Fam years ago and were gifted the Sherbet cut used in this cross.
