WINE SOUR GRAPE HASH

DESCRIPTION

The Evelyne, referred to by some as “Northern Buckeye”, offers a beautiful combination of two of the most well-known lines from Melvanetics – her Buckeye Purple (GDP x Gorilla Grape) and 1989 NL5. This strain’s trichome-laden flowers contain amazing shades of pinks and purples that are a testament to its strong Indica effects. With an aroma that combines the typical “rotten fruit funk” odor of the NL5 with the wine-like scent of its Buckeye Purple parent. Patients who have enjoyed strains such as our Granddaddy Purple, Hindu Kush, and Kushberry should take the opportunity to try this strain.

PARENT #1: Buckeye Purple

Indica-Dominant Hybrid

Breeder: Melvanetics

Lineage: Graddaddy Purple x Gorilla Grape

Buckeye Purple is a rare indica-dominant hybrid strain created through crossing the classic Granddaddy Purple and Gorilla Grape strains. This strain has a heavy indica effect that leaves you feeling couch locked and completely sedated for hours on end.

PARENT #2: 1989 Northern Lights #5

Indica-Dominant Hybrid

Breeder: Melvanetics

Lineage: Unknown

Melvanetics 1989 Northern Lights #5 is an anchor to their breeding projects. It smells sweet, piney and tangy and is described as having a rotten fruit smell. Effects of this strain will leave you feeling happy with a nice sense of well being.
