## TASTE/SCENT

---

**GROUND BLACK PEPPER CHEM DIESEL**

## DESCRIPTION

---

Tres Dawg, bred by Top Dawg Seeds, is a cross between ChemD and Double Dog. Its aroma is similar to that of our 3 Chems strain, peppery, chem/diesel. Due to its higher concentrations of beta-Caryophyllene Tres Dawg could be a great strain for inflammation and pain. Its effects will leave you relaxed and calm. Chemdog strains have been a staple in breeding projects for well over a decade, so don't miss your chance to partake in one of the originals.

## PARENT #1: Chemdog

---

**Hybrid**

**Breeder:** Chemdog

**Lineage:** Unknown

Chemdog has developed quite the name for itself over the years. Between its mysterious origin, ambiguous genetics, and the plethora of successful crosses the strain has produced, Chemdog has practically secured itself a permanent place in the cannabis hall of fame. The original source of powerhouse strains like Sour Diesel and OG Kush, Chemdog is known for its distinct, diesel-like aroma. Pungent and sharp, you'll be able to smell this strain from a mile away.

## PARENT #2: Double Dawg

---

**Indica-Dominant Hybrid**

**Breeder:** Top Dawg Seeds

**Lineage:** Chemdog x (Chemdog x Afghani #1)

Double Dawg cannabis strain is an Indica dominant hybrid. With Chemdog and Afghani parentage, it's not surprise that this is a heavy hitter that brings calm to many users. It could be used for pain, appetite loss, and insomnia. It has large yields with a diesel flavor and smell. Double Dawg is best for evening usage.
