## Cannabis-Infused Body Balm

### KEY SELLING POINTS

---

- Nordic Goddess Therapeutic Body Balm provides both anti-inflammatory and pain relieving properties and is made using only the highest quality ingredients. Infused with cannabis-extracted CBD and formulated essential oils, cocoa butter and Shea butter we've created the perfect 1:1 body balm for your daily regimen. (250mg CBD:250mg THC)
- In this topical, we use a method called Solid Micro-Structured Drug Delivery. We use a natural beeswax that has a different melting point (aka Glass Transition) than the surrounding body balm ingredients such as shea butter and coconut oil. When Nordic Goddess is manufactured, very small globules of grainy waxes remain that will melt when rubbed in. The mechanical rubbing action assists in opening the skin layers and allowing the active medicine to be delivered while resulting in a much more effective product than competing body balms. In addition to our delivery system our this product is infused using nano- extraction technology (NXT) which physically reduces the oil molecules to micron size to improve the penetration of the product through the skin.
- This product has many great uses and is awesome for soothing aches and pains, reducing muscle spasms and tightness, arthritis, skin conditions including acne/dry skin, endometriosis, migraines, sunburns and much more!
