ABOUT ME

Personal Lubricant

Extraction Method: Ethanol Extraction

Dosage: Each 1 ml. Pipette contains approximately 60mg of THC

ABOUT 612 STUDIOS

Inaugural members of the Sira Accelerator program, Leah and Sieh Samura are the dynamic husband and wife team behind 612 Studios, LLC. Leah Samura has been a dedicated community technology instructor and program manager in Roxbury, MA, for local non-profits. Sieh Samura, a veteran of the Iraq War, started New England's Original Private Cannabis Club, Mass Bay Cannabis, and is a vocal cannabis consumer rights activist. Together they will offer Purient, a premium line of cannabis-infused intimate products designed to heighten sexual experience.

DESCRIPTION

Purient™ is a cannabis infused pre-foreplay personal lubrication. It is an all-natural, Coconut Oil-based, personal lubricant, designed to be applied before foreplay, and created to enhance your sexual experience.

Purient™ was designed to be a pre-foreplay preparation, but can be enjoyed in a variety of intimate ways:

- Alone or applied by your partner
- Before or during sexual contact
- Vaginally, rectally, or on the surface of your skin

Regardless of the way you choose to enjoy, we have four recommendations to maximize your experience:

1. Apply 30-60 min before intimacy
2. Use up to one pipette (1ml.) or less to start (everyone's tolerance is different)
3. Do not combine with latex (coconut oil is not compatible with latex)
4. Can be safe to use with most adult toy products (be sure to check for compatibility with oil-based products)

Most importantly, if you have any questions, visit bedroomcannabis.com

DIRECTIONS FOR USE

- Remove pipette
- Remove cap from bottle
- Fill pipette to desired level by squeezing the pipette bulb and drawing up Purient™
 - Each pipette holds a maximum of 1ml.
 - Pipettes are for single use only, please discard for recycling after use
- 1ml. contains approximately 60 mg of THC
- Apply 30-60 minutes before intimacy
- Caution: the full effect may not be realized for 30-60 minutes

ABOUT 612 STUDIOS

Inaugural members of the Sira Accelerator program, Leah and Sieh Samura are the dynamic husband and wife team behind 612 Studios, LLC. Leah Samura has been a dedicated community technology instructor and program manager in Roxbury, MA, for local non-profits. Sieh Samura, a veteran of the Iraq War, started New England's Original Private Cannabis Club, Mass Bay Cannabis, and is a vocal cannabis consumer rights activist. Together they will offer Purient, a premium line of cannabis-infused intimate products designed to heighten sexual experience.

TO APPLY INTERNALLY (VAGINAL OR RECTAL):

- Recline or lie on your back with your knees spread upward.
- Carefully insert narrow end of applicator only into the vagina (or rectum).
- Once inserted, squeeze bulb to ensure contents are released.
- Discard pipette for recycling.
- Recline for at least five minutes to retain oil.
- Wait approximately 30 to 60 minutes, before intimacy or sexual contact.

TO APPLY EXTERNALLY (TOPICAL):

- Use as a natural personal lubricant or blend with a non-THC infused oil to serve as a sensual massage or healing oil.
- Apply to skin by gently rubbing up to one pipette full onto the area you want to stimulate.
- Wait approximately 30 to 60 minutes, before intimacy or sexual contact.

ALLERGY CONCERNS:

- Contains coconut oil and cannabis oil.

PRECAUTIONS:

- DO NOT use with latex condoms.
- Cease use with any signs of allergic reaction or negative side effects.
- THIS PRODUCT IS FOR TOPICAL APPLICATION ONLY, DO NOT DRINK.
