

HPS: Your solution to attract and retain clients

Competitive Wisconsin provider network + one-statement billing experience

Whether you need a quick refresher on the value of HPS, or you want to share with your colleagues, this resource provides the information you need about HPS, the benefits for you and your clients, and how to work with us.

Deliver cost-saving solutions to your clients

Broad provider network

The HPS network offers a broad choice of traditional providers plus new and innovative methods of receiving care, such as telemedicine and bundled procedures/payments. This range of options allows HPS members to be more effective healthcare consumers and HPS is always looking for opportunities to add creative cost-saving solutions such as freestanding imaging centers.

HPS is a great addition to our package to help keep costs down without having to pass any of that on to our employees."

- HPS Customer

Part of your local community

HPS is an in-state network with deep Wisconsin roots. Our contracted providers are pillars of your clients' communities and HPS is committed to serving our local communities as well. We understand the challenges and trends among Wisconsin consumers and aim to provide solutions that cater to those specific needs.

Protecting your clients today and tomorrow

Our competitive provider contracts protect your clients' bottom lines and their employees' bank accounts. Unlike many networks, the majority of our contracts are negotiated in terms of fixed fees (not discounts) so there's no ambiguity about what a patient will pay—and 97% of our contracts include inflation protection to keep those prices low. HPS consistently reduces trend year over year, as we're continuously improving contracts and network as a whole.

Simplify the health care experience for clients' employees

Super simple billing experience

In addition to favorable pricing, employees have the benefit of HPS' SuperEOB.

Option of a single payment plan interest-free for six months for all providers

HPS saves on so many headaches for not only myself as an employee but also from an HR standpoint!"

- HPS Customer

Self-serve member resources

HPS makes it easy for plan members to get the resources they need, 24/7, through our online member portal.

- Super quick and easy to make a payment
- O Detailed claim data available
- Self-help resource library
