Trusted OpenStreetMaps

## Trusted OpenStreetMaps (TOSM)

A low-cost map alternative from a leader in maps.

TOSM is a feature-rich immersive map experience that brings crowd sourced data to real users. Comtech provides a platform for an Open Street Maps (OSM) mapping solution that is low-cost and easy to integrate.

TOSM provides complete design control. Customers can create detailed maps and integrate customized content.

The benefit for our customers is that they receive a comprehensive solution for mapping and navigation that includes automatic updates, real-time traffic and integrated content.

Our History

The team at Comtech has been providing mapping and navigation solutions around the world for over 10 years. We provide white label options to the organization such as mobile network operators, mobile phone and automobile manufacturers. Our customers receive not only an economical product, but also a complete navigation solution with a highly qualified professional support team.
