Now available UK asset management module

Getting tired of manually maintaining prospect and client information?
Do you want to avoid the embarrassment of having inaccurate prospect details?

Exelerating helps you grow your asset management business by providing you with an accurate and up to date UK Pension Fund database. We enable you to stay up to date with the latest data and news of the pension funds in your target market. The moment new information becomes publicly available, our scrapers automatically detect this and inform you. By using our high-quality database and easy to use analytic tools, you can carry out your own analysis to answer the following questions:

- Who are the **decision makers** at prospect ABC?
- What **mandates** do my competitors have?
- What investment managers does **consultant** XYZ recommend to their clients?
- Which pension funds invest in my **asset class**?

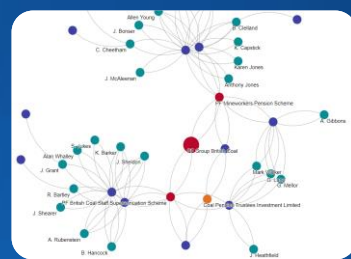

Accurate

Up to date

Easy to use

Always have accurate and up to date
information about the pension funds in
your target market
