

# SIMPLIFY YOUR BILLING SYSTEM

For Greater Attorney Efficiency & Client Satisfaction

## Track all of your time.

Whether it's billable time or not, it's important to track all of the time you spend while working. You can see where your time is going and take appropriate steps to make any adjustments.

## Offer multiple payment options.

Offer traditional payment options like credit cards and checks but make sure to give clients online options, too. Whether it's LawPay, PayPal, or even Venmo, make it easy for clients to pay you.

## Be descriptive with details.

The more information you provide to your clients on the details of your billing, the better. Think less 'Research' and more 'Researching a great legal technology platform.'

## Use Legal Tech As A Tool. Focus on People & the Law.

Not all legal tech is created equal. Built by attorneys for attorneys and their clients, SimpleLaw uniquely connects clients, attorneys, paralegals and more. Tech is a tool. The law is all about people.
