

## THE FUTURE OF REHAB & HEALTHY AGING

Infinity offers a new approach to healthy aging using cutting edge equipment paired with Virtual Reality. With rehab-focused games, patients can engage in tasks that challenge their visual, auditory, cognitive, memory, and critical thinking abilities, all while exercising. Blue Goji will have individualized rehab plans that are immersive and engaging. With a unique mind-body connection at its core, Infinity’s *active VR* environment offers a new, revolutionary approach to rehabilitating older patients suffering from various physical or mental conditions.
