RVC

CASE STUDY

ROYAL VETERINARY COLLEGE

Moodle Integration
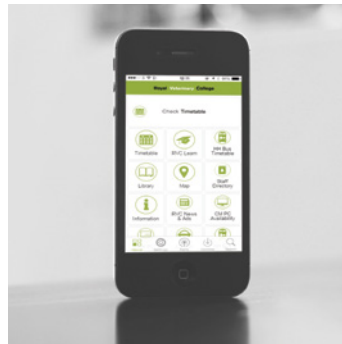

ExLibris
campusM

SUCCESS **INDICATOR**

RVC Learn tile is 2nd most popular option within the app

THE ROYAL VETERINARY COLLEGE (RVC) WAS KEEN TO MOBILIZE TEACHING AND LEARNING INFORMATION AND FUNCTIONS BY INTEGRATING MOODLE INTO THE CAMPUSM PLATFORM.

GOAL

Make Moodle learning content available on all digital devices

RESPONSE

Rapid delivery of solution integrating Moodle and campusM

SUCCESS

Positive student and staff feedback on live services and demonstrations

ENGAGEMENT

- Thorough requirements gathering and rapid delivery of bespoke solution

- Development of campusM plug-ins, tested and installed within RVC's Moodle environment

- Development of screens to access core study information and interactive features within app

DELIVERABLES

- Seamless and personalized links with Moodle to mobilize learning and functionality

- Mobile access to recorded lectures through campusM Platform via Moodle

- Push notifications take Moodle messages, e.g. course announcements, directly to user devices

OUTCOMES

- Meets significant demand from RVC students for mobile learning provision

- Ready to go live within three months supporting institution-wide mobile learning initiatives

- Positive feedback from students and staff on live push notifications and app demonstrations

> " I was really impressed with what the campusM consultant managed to deliver. Our working relationship was great. I took him through my ideas and the issues we were facing. He got back to me the next day with the whole solution packaged and ready to go. He delivered complex new functionality very quickly. "

ALISTAIR SPARK, VLE OFFICER, ROYAL VETERINARY COLLEGE

ExLibris
campusM
