1. CORPORATE INFORMATION

Pivot Acquisition Corp. ("Pivot Acquisition") completed a reverse takeover ("RTO") of Pivot Technology Solutions, Inc. ("Pivot" or the "Company"), formerly known as Acme Capital Corporation ("Acme"), on March 25, 2013. The Company is publicly listed on the TSX Venture Exchange and trades under the symbol "PTG". Acme was incorporated under the Business Corporations Act (Alberta) on January 25, 2011. It was classified as a Capital Pool Company, as defined in Policy 2.4 of the TSX Venture Exchange Inc. and, accordingly, had no significant assets other than cash and no commercial operations. Acme changed its fiscal year end to December 31 on March 25, 2013.

Pivot Acquisition was incorporated under the Business Corporations Act (Ontario) on September 8, 2010, and domiciled in Ontario, Canada. The registered office is located at 40 King Street, Suite 4400, Toronto, Ontario.

The Company has the following wholly owned subsidiaries: ACS Holdings (Canada) Inc., Pivot Technology Solutions, Ltd. (formerly known as ACS Acquisition Holdings Inc.), Pivot Research Ltd., Pivot Shared Services Ltd., ACS (US) Inc. ("ACS"), New ProSys Corp. ("ProSys"), Sigma Technology Solutions, Inc. ("Sigma") and ARC Acquisition (US), Inc. ("ARC").

The unaudited interim condensed consolidated financial statements of the Company for the three and six month periods ended June 30, 2014 and 2013 were authorized for issue in accordance with a resolution of the Company's Board of Directors on August 26, 2014.

The Company's strategy is to acquire and integrate technology solution providers, primarily in North America. The businesses acquired to date design, sell and support integrated computer hardware, software and networking products for business database, network and network security systems. The Company primarily serves customers throughout the United States of America ("U.S.").

2. BASIS OF PREPARATION

Except for recent accounting pronouncements described in Note 3, the unaudited interim condensed consolidated financial statements have been prepared using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended December 31, 2013.

The unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

The unaudited interim condensed consolidated financial statements are presented in U.S. dollars and all dollar values are rounded to the nearest thousand ($000), except where otherwise noted.

The unaudited interim condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2013.

Certain amounts have been reclassified from the unaudited interim condensed consolidated financial statements previously presented to conform to the presentation of these unaudited interim condensed consolidated financial statements in accordance with IFRS.

Management has determined that the Company operates as a single operating segment, and the Company undertakes its operations in the U.S. Therefore, no segment reporting is included in these unaudited interim condensed consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Standards effective January 1, 2014

The Company has adopted the following new standards, effective January 1, 2014. These changes were made in accordance with the applicable transitional provisions.

Amendments to IAS 32 Financial Instruments: Presentation

Amendments to IAS 32 were issued to clarify the existing requirements for offsetting financial assets and financial liabilities. The adoption of this amendment did not have an effect on the unaudited interim condensed consolidated financial statements of the Company.

International Financial Reporting Standards Interpretations Committee ("IFRIC") Interpretation 21, *Levies*

IFRIC 21 addresses various accounting issues relating to levies imposed by a government. The adoption of this amendment did not have an effect on the unaudited interim condensed consolidated financial statements of the Company.

Amendments to IAS 39, Financial Instruments Recognition and Measurement

In June 2013, Novation of Derivatives and Continuation of Hedge Accounting was issued, which amends IAS 39, Financial Instruments Recognition and Measurement. Under these narrow scope amendments there would be no need to discontinue hedge accounting if a hedging derivative was novated, provided certain criteria are met. The adoption of this amendment did not have an effect on the unaudited interim condensed consolidated financial statements of the Company.

Standards issued but not yet effective

Standards issued but not yet effective up to the date of the issuance of the Company's unaudited interim condensed consolidated financial statements are listed below. This listing is of standards issued which the Company reasonably expects to be applicable at a future date. The Company intends to adopt those standards when they become effective.

IFRS 9 Financial Instruments: Classification and Measurement

International Financial Reporting Standard 9, Financial Instruments ("IFRS 9"), as issued in 2014, introduces new requirements for the classification and measurement of financial instruments, a new expected-loss impairment model that will require more timely recognition of expected credit losses and a substantially-reformed model for hedge accounting, with enhanced disclosures about risk management activity. IFRS 9 also removes the volatility in profit or loss that was caused by changes in an entity's own credit risk for liabilities elected to be measured at fair value. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. The Company has not yet begun the process of evaluating the impact of this standard on its unaudited interim condensed consolidated financial statements.

IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, which covers principles for reporting about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. IFRS 15 is effective for annual periods beginning on or after January 1, 2017. The Company is in the process of reviewing the standard to determine the impact on the consolidated financial statements.

4. ACCOUNTS PAYABLE AND ACCRUED LIABILITES

A subsidiary of the Company has a secured flooring agreement with IBM Global Finance ("IBM") which provides short-term financing. Certain vendors send invoices directly for payment and IBM bills the Company monthly for vendor invoices received. After 60 days, the Company incurs interest on the outstanding balance at LIBOR plus 4.5%. The Company is required to maintain certain financial ratios and was in compliance at June 30, 2014 and December 31, 2013. $16,855 and $18,595 is due to IBM at June 30, 2014 and December 31, 2013, respectively. This amount is included in accounts payable in the unaudited interim condensed consolidated statements of financial position.

(unless otherwise noted all amounts are in thousands of U.S. dollars)

Secured borrowings

On November 13, 2013 (“Closing Date”), Pivot Technology Solutions Ltd., a wholly owned subsidiary of the Company, along with certain of its subsidiaries, ACS, ProSys and Sigma (collectively the “PNC Borrowing Group”), entered into an agreement with PNC Bank (“PNC”) for the provision of $185,000 of senior secured asset based credit facilities (“ABL Credit Facility”). The ABL Credit Facility replaces the separate facilities held by ACS, ProSys and Sigma with PNC and Wells Fargo Bank, N.A. (“Wells”). The ABL Credit Facility originally consisted of a $10,000 term loan (“ABL Term Loan”) and a senior secured revolving credit facility (“ABL Revolving Credit Facility”) that allows the PNC Borrowing Group to draw up to $175,000, subject to borrowing base limitations, a portion of which may be used for letters of credit or swing line loans. Simultaneously, as part of the agreement with PNC, the Wells agreement held by ACS was formally terminated and paid off. Financing fees of $3,261 were incurred during the year ended December 31, 2013, which are being amortized over the term of the ABL Revolving Credit Facility.

The ABL Term Loan principal is due in four consecutive quarterly installments of $500 commencing January 1, 2014, ten consecutive quarterly installments of $750 commencing on January 1, 2015, followed by a final payment of $500 plus all unpaid principal, accrued and unpaid interest and all unpaid fees and expenses on August 13, 2017. Unless a new credit facility is arranged by PNC, a 2% premium applies to any portion of the ABL Term Loan that is prepaid on or before the one year anniversary of the Closing Date and a 1% premium applies to any prepayment after the first anniversary of the Closing Date and on or before the third anniversary of the Closing Date. The ABL Term Loan may be prepaid without premium or penalty after the third anniversary of the Closing Date.

The ABL Revolving Credit Facility provides for a borrowing rate of Prime plus 1.25% or LIBOR plus 2.25% per annum, at the Company's election. The ABL Term Loan bears interest at Prime plus 9% or LIBOR plus 10% per annum at the Company's election and contains an unused commitment fee of 0.75% per annum. The ABL Revolving Credit Facility also contains an unused commitment fee of 0.375% per annum.

As at June 30, 2014 and December 31, 2013, $115,896 and $101,624 was outstanding under the ABL Revolving Credit Facility. The ABL Term Loan had an outstanding balance of $9,000 and $10,000 as at June 30, 2014 and December 31, 2013, respectively.

The PNC Borrowing Group had available borrowings under the ABL Credit Facility of $24,197 and $34,888, as at June 30, 2014 and December 31, 2013, respectively, after giving effect to the borrowing base limitations, swing loans and letters of credit issued. The PNC Borrowing Group can use up to $10,000 of its available borrowing under the ABL Credit Facility for letters of credit which are charged a fronting fee of 0.25% and bear interest at LIBOR plus 2.25%. The PNC Borrowing Group can also use up to $17,500 of its available borrowing under the ABL Credit Facility for swing loans which are charged a fee of Prime plus 1.25% per annum. As at June 30, 2014 and December 31, 2013, no letters of credit were outstanding under the ABL Credit Facility. As at June 30, 2014 and December 31, 2013, $7,707 and $21 of swing loans were outstanding under the ABL Credit Facility, respectively.

Under the terms of the ABL Credit Facility, the PNC Borrowing Group is subject to certain restrictive covenants. The covenants require that the PNC Borrowing Group maintain a fixed charge ratio of at least 1.15 to 1 and a senior leverage ratio of 4.25 to 1. Additional restrictive covenants require that distributions from the PNC Borrowing Group to the Company are restricted to the payment of dividends in respect of the Series A Preferred Shares, and to operating expenses incurred by the Company in the ordinary course of business. The covenants also place restrictions on investments, additional indebtedness, distributions (including distributions by the Company's subsidiaries to the Company), capital expenditures and leases. On June 30, 2014, the PNC Borrowing Group's senior leverage ratio exceeded the maximum senior leverage ratio, however, an amendment was signed August 21, 2014, raising the senior leverage ratio, where the company is considered to have been in compliance as at June 30, 2014 (note 15). As the amendment occurred after the reporting period, the entire outstanding ABL Credit Facility balance is reflected as payable upon demand, as a current liability, in the unaudited interim condensed consolidated statement of financial position at June 30, 2014. The Company was in compliance with the restrictive covenants at December 31, 2013.

Contingent and fixed consideration

On December 30, 2010, the Company acquired substantially all of the net assets of Applied Computer Solutions ("Old ACS"). As part of the asset purchase agreement with Old ACS, contingent consideration had been agreed. The consideration was dependent on the profit before tax of the acquired business during the three consecutive 12-month periods ending December 31, 2013. The consideration was to be paid over three years and was due for final measurement and payment to the shareholders of Old ACS on May 1, 2014. On August 19, 2013, the Company reached an agreement with the shareholders of Old ACS to allow up to $4,000 of the contingent consideration liability to be deferred until June 30, 2014. All amounts unpaid after December 31, 2013 bear interest at 8% per annum. On July 23, 2014, the Company reached an agreement with the shareholders of Old ACS for the remaining balance to be deferred until July 31, 2014, for consideration of $35 (note 15). As at June 30, 2014, the undiscounted value of the remaining consideration to be paid was $1,250. As this amount was determined to be fixed during 2014, the balance is classified as a fixed current financial liability in the unaudited interim condensed consolidated statement of financial position. At the date of acquisition, the fair value of the contingent liability was determined to be $33,291. As at June 30, 2014 and December 31, 2013, the fair value of the consideration was determined to be $1,250 and $3,800, respectively. The Company recorded a charge (recovery) of $132 and ($9,995) related to the change in fair value of the consideration for the three month periods ended June 30, 2014 and 2013, respectively. The Company recorded a charge (recovery) of $212 and ($15,293) related to the change in fair value of the consideration for the six month periods ended June 30, 2014 and 2013, respectively. Payments of $2,762 and $1,083 were made during the three month periods ended June 30, 2014 and 2013, respectively. Payments of $2,762 and $5,748 were made during the six month periods ended June 30, 2014 and 2013, respectively.

On January 4, 2011, the Company acquired all of the issued and outstanding share capital of ProSys Information Systems, Inc. ("Old ProSys"), a wholly owned subsidiary of Avnet, Inc. As part of the purchase agreement with the shareholders of Old ProSys, contingent consideration had been agreed. The consideration was dependent on a measure of operating profit before tax of the acquired business during the three consecutive 12-month periods ending December 31, 2013. The fair value at the acquisition date was $4,707 and was determined to be $2,213 as at December 31, 2013. The amount was paid in full as at June 30, 2014. The Company recorded a charge (recovery) of $32 and ($11) related to the change in fair value of the contingent consideration for the three months ended June 30, 2014 and 2013, respectively. The Company recorded a charge of $125 and $151 related to the change in fair value of the contingent consideration for the six months ended June 30, 2014 and 2013, respectively. Payments of $2,338 and $1,642 were made during the three and six month periods ended June 30, 2014 and 2013, respectively.

On August 12, 2011, the Company acquired substantially all of the assets and liabilities of Austin Ribbon & Computer Supplies, Inc. ("Old ARC"). As part of the asset purchase agreement with the shareholders of Old ARC, contingent consideration has been agreed. This consideration is dependent on a measure of operating profit before tax of the acquired business during the three consecutive 12-month periods ending August 12, 2014. The fair value at the acquisition date was

$3,060 and was determined to be $2,322 and nil as at June 30, 2014 and December 31, 2013, respectively. The Company recorded a charge (recovery) of $90 and ($1,779) related to the change in fair value of the contingent consideration for the three months ended June 30, 2014 and 2013, respectively. The Company recorded a charge (recovery) of $2,322 and ($1,622) related to the change in fair value of the contingent consideration for the six months ended June 30, 2014 and 2013, respectively. No payments were made during the three and six month periods ended June 30, 2014 and 2013. The possible range of undiscounted values of the remaining consideration to be paid is between nil and $2,500.

On July 1, 2012, the Company acquired substantially all of the net operating assets of Sigma Solutions, LP ("Old Sigma"). As part of the asset purchase agreement with the partners of Old Sigma, contingent consideration had been agreed. The consideration was dependent on a measure of operating profit before tax of the business acquired from Old Sigma during the three consecutive 12-month periods ending July 1, 2015. The purchase agreement was amended on May 7, 2014, whereby the remaining undiscounted consideration is now fixed at $7,500, payable in the amounts of $3,500 and $4,000 on October 31, 2014 and October 31, 2015, respectively. The fair value at the acquisition date was estimated to be $5,719 and was determined to be $6,516 and $4,880 as at June 30, 2014 and December 31, 2013, respectively. The Company recorded a charge of $282 and $2,397 related to the change in fair value of the consideration for the three months ended June 30, 2014 and 2013, respectively. The Company recorded a charge of $1,636 and $2,397 related to the change in fair value of the consideration for the six months ended June 30, 2014 and 2013, respectively. Payments of nil were made during the three months ended June 30, 2014 and 2013. Payments of nil and $1,000 were made during the six months ended June 30, 2014 and 2013, respectively.

Convertible debentures and Series A Preferred Shares

On April 14, 2011, the Company issued unsecured subordinated convertible debentures ("Debentures") pursuant to a debenture indenture in the aggregate amount of C$43,600. The Debentures bore interest at 12% per annum and matured on the earlier of the date that the Company completed a liquidity event or April 14, 2013. Interest was payable quarterly in July, October, January and April.

On November 21, 2012, Debentures totalling C$1,000 were cancelled to settle amounts due from members of management, representing foreign withholding tax paid by the Company on behalf of those members of management, reducing the outstanding principal amount of the Debentures from C$43,600 to C$42,600.

The fair value of the Debentures was calculated using discounted cash flows.

On January 25, 2013, Pivot Acquisition amended the terms of its outstanding Debentures to provide an additional conversion right, such that a Debenture holder has the right, exercisable within 10 business days of the receipt of notice of a proposed reverse takeover or a merger or amalgamation with a publicly listed company, to convert all or a portion of such holder's outstanding Debentures into a new class of Pivot Series A Preferred Shares ("Series A Preferred Shares") at a price per share that is equal to 50% of the offering price in any concurrent public or private financing with a proposed reverse takeover, merger or amalgamation with a publicly listed company.

On March 25, 2013, immediately prior to the completion of the RTO, Debentures in the amount of C$40,981 were converted into 102,452,501 Series A Preferred Shares (note 6) and Debentures in the amount of C$1,619 were converted into 4,047,500 common shares (note 6) of the Company in accordance with the terms of the Debentures.

Interest rate swap

On April 3, 2014 the Company entered into an interest rate forward swap agreement ("Swap") with PNC to mitigate the risk of fluctuating interest rates. Under the terms of the Swap, the interest rate will vary between 4.655% and 5.155% on $50,000 of the amount outstanding under the ABL Credit Facility. This range of rates will be in effect from April 7, 2016, through November 13, 2018. Changes in the fair value of this instrument are recorded as a change in fair value of liabilities in the unaudited interim condensed consolidated statements of comprehensive income (loss). As at June 30, 2014, the net present value of the Swap was determined to be ($738), which represents the cost that would be incurred by the Company to exit the Swap, due to fluctuations in future interest rate expectations. The Swap agreement with PNC contains cross covenant restrictions, requiring that the Company be in compliance with the ABL Credit Facility. As the amendment to the ABL Credit Facility occurred after the reporting period, the entire Swap balance is reflected as payable upon demand, as a current liability, in the unaudited interim condensed consolidated statement of financial position at June 30, 2014.

6. PRIVATE PLACEMENT AND REVERSE ACQUISITION

The private placement and reverse acquisition ("Qualifying Transaction") was completed on the following basis:

- The Company changed its name from Acme Capital Corporation to Pivot Technology Solutions, Inc., effective March 21, 2013, and now trades under the symbol "PTG" on the TSX Venture Exchange.
- 8,000,000 outstanding shares of Pivot were consolidated on the basis of one post-consolidation share for each previously outstanding 8 common shares of the Company effective March 21, 2013.
- 800,000 outstanding employee options issued by Pivot were consolidated on the basis of one post-consolidation option for each previously outstanding 8 issued options. The options were exercisable for C$0.80 per share. The options expired on March 25, 2014.

- 200,000 agent compensation options of Pivot granted to the IPO Agent were consolidated on the basis of one post-consolidation option for each previously outstanding 8 issued options. The options were exercisable for C$0.80 per share. The options expired on September 29, 2013.
- 56,000,000 common shares owned by the former shareholders of Pivot Acquisition were issued common shares of Pivot on a one for one basis.
- The subscription receipts issued by Pivot Acquisition (the "Subscription Receipts") at a price of C$0.80 per Subscription Receipt in connection with its brokered private placement was completed on March 11, 2013, resulting in the issue of 4,421,625 Subscription Receipts and raising gross proceeds of C$3,537. The Subscription Receipts were subsequently converted into common shares of Pivot on a one for one basis. 309,514 agent compensation options issued by Pivot Acquisition in connection with the private placement were replaced with 309,514 agent compensation options under Pivot, entitling the holder to purchase one Pivot share at C$0.80 per share until March 11, 2015.
- Following the Qualifying Transaction, Pivot Acquisition converted Debentures in the amounts of C$40,981 and C$1,619 into 102,452,501 Series A Preferred Shares and 4,047,500 common shares, respectively. These shares were exchanged on a one for one basis into 102,452,501 preferred shares and 4,047,500 common shares of Pivot. Broker compensation options of 7,455,000 issued in relation to this transaction were exchanged on a one for one basis into Pivot options. The options can be exercised for C$0.40 per share, and expire March 25, 2015.
- The Company changed its financial year end to December 31, beginning with the financial year ended December 31, 2013.
- On March 25, 2013, the Company issued 166,921,626 of common and preferred shares to the former shareholders of Pivot Acquisition in exchange for 100% interest in Pivot Acquisition.

As a result of the transaction, the former shareholders of Pivot Acquisition owned 99.4% of the outstanding shares of the Company.

In accordance with IFRS 3, Business Combinations, the substance of the transaction is a reverse acquisition of a non-operating company. The transaction does not constitute a business combination as the Company prior to the RTO did not meet the definition of a business under the standard. As a result, the transaction is accounted for as a capital transaction with Pivot Acquisition being identified as the accounting acquirer and the equity consideration being measured at fair value. The resulting consolidated statement of financial position is presented as a continuance of Pivot Acquisition and comparative figures presented in the consolidated financial statements after the reverse acquisition are those of Pivot Acquisition.

(unless otherwise noted all amounts are in thousands of U.S. dollars)

IFRS 2, *Share-based Payment*, applies to transactions where an entity grants equity instruments and cannot identify specifically some or all of the goods or services received in return. Because the Company has issued shares with a value in excess of the assets received, IFRS 2 would indicate that the difference be recognized in comprehensive loss as a reverse acquisition transaction cost. The amount assigned to reverse acquisition transaction cost of $851 is the difference between the fair value of the consideration and the net identifiable liabilities of the Company acquired by Pivot Acquisition, and is included in the consolidated statements of comprehensive loss.

The fair value of the consideration is determined based on the percentage of ownership the legal parent's shareholders have in the combined entity after the RTO transaction. This represents the fair value of the shares that Pivot Acquisition would have had to issue for the ratio of ownership interest in the combined entity to be the same, if the transaction had taken the legal form of Pivot Acquisition acquiring 100% of the shares in the Company.

The percentage of ownership the legal parent's shareholders had in the combined entity is 0.6% after the issue of 166,921,626 common and preferred shares of the Company to Pivot Acquisition shareholders. The warrants granted prior to the RTO remain exercisable after the completion of the amalgamation, and as such, the fair value of the warrants at the date of amalgamation is also included as part of the consideration transferred (note 7).

Based on the statement of financial position of the Company at the time of the reverse acquisition, the net liabilities at estimated fair value that were acquired by Pivot Acquisition were $47 and the resulting reverse acquisition transaction cost charged to the consolidated statements of comprehensive loss is as follows:

Consideration:	
Deemed issue of shares by Pivot Acquisition	783
Deemed replacement of options	21
	804
Identifiable net liabilities acquired:	
Cash	126
Taxes recoverable	16
Accounts payable and accrued liabilities	(189)
	(47)
Unidentifiable assets acquired:	
Reverse acquisition transaction cost	851
Total net identifiable liabilities and reverse acquisition transaction cost	804

(unless otherwise noted all amounts are in thousands of U.S. dollars)

7. SHARE CAPITAL

As at June 30, 2014, the issued share capital amounted to $86,125. An unlimited number of both common and Series A Preferred Shares, with no par value, are authorized for issuance. The changes in issued share capital for the six month period ended June 30, 2014 were as follows:

	Series A Preferred #	Class A Preference #	Class A Common #	Class B Common #	Class C Common #	Common Shares #
As at January 1, 2014	65,262,480	-	-	-	-	102,659,146

As at June 30, 2014	**62,279,180**	-	-	-	-	**105,567,446**

Note: Share amounts are not rounded

As at June 30, 2013, the issued share capital amounted to $86,103. An unlimited number of both common and Series A preferred shares, with no par value, are authorized for issuance. The changes in issued share capital for the six month period ended June 30, 2013 were as follows:

	Series A Preferred #	Class A Preference #	Class A Common #	Class B Common #	Class C Common #	Common Shares #
As at January 1, 2013	-	-	3,000,000	2,000,000	51,000,000	-

As at June 30, 2013	**88,989,501**	-	-	-	-	**78,932,125**

Note: Share amounts are not rounded

(unless otherwise noted all amounts are in thousands of U.S. dollars)

Series A Preferred Shares

The holders of Series A Preferred Shares are entitled to receive on a monthly basis in cash, out of any funds legally available therefor, a fixed cumulative preferential dividend at the rate of 6% per annum, when declared by the Board of Directors. The holders of the Series A Preferred Shares will be permitted to require the Company to redeem the Series A Preferred Shares for cash at a price per share that is equal to C$0.48 following the completion of any transaction where the Company has raised C$75,000 in capital. The Series A Preferred Shares carry an optional conversion right where each Series A Preferred Share can, at the option of the holders, be converted into one common share of the Company. The Series A Preferred Shares also carry a conversion right, whereby at any time after June 30, 2013, the Company is permitted to require the holders to convert the Series A Preferred Shares into common shares of the Company.

Income (loss) per share

Basic earnings per share is based on the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share assumes the weighted average dilutive effect of common share equivalents outstanding during the period applied to the Company's basic earnings per share. Common share equivalents represent potentially dilutive stock options, warrants, and dilutive shares related to the Company's Series A Shares. Common share equivalents are excluded from the computation in periods in which they have an anti-dilutive effect. The computation of diluted earnings per share for the three and six month periods ended June 30, 2013 did not include options to purchase 7,889,514 shares, as the result would have been anti-dilutive.

The following is a reconciliation of the weighted average common shares used to calculate basic net income per share to the weighted average common and potential common shares used to calculate diluted net income per share for the three months ended June 30, 2014:

For the three months ended,	**June 30, 2014**
Shares used in calculation – basic	104,627,162
Stock options and warrants	7,764,514
Conversion of preferred shares	62,279,180
Shares used in calculation – diluted	174,670,856

For the six month period ended June 30, 2014, the basic loss per share calculated amount is the same as the fully diluted loss per share amount as the effect of any outstanding options or warrants would be anti-dilutive, because the Company was in a loss position. The weighted average number of common shares issued and outstanding used to calculate basic earnings per share was 103,678,770 for the six month period ended June 30, 2014. The weighted average number of common shares issued and outstanding for the three and six month periods ended June 30, 2013, was 75,110,037 and 66,316,022, respectively.

Warrants and options

Broker warrants

The Company's broker warrant instruments are classified as equity and measured at fair value on the date of issue. Broker warrants are compensation warrants issued to the brokers involved in the Company's financing efforts. Fair value is calculated at the grant date using the Black-Scholes option pricing model and management's assumptions.

Subsequent to issue, broker warrants are not revalued. Warrants and broker warrants are re-classified to share capital when they are exercised.

On March 11, 2013, Pivot Acquisition granted to its agents non-transferable warrants to purchase up to an aggregate of 309,514 common shares at a price of C$0.80 per share exercisable for a period of two years. The relative fair value of the warrants included in the private placement units (note 6) was valued using the Black-Scholes option pricing model using the following fair value assumptions: dividend yield of 0%, volatility rate of 60%, expected life of two years and risk-free interest rate of 0.98%. The fair value allocated to the warrants was C$83.

During 2011, Pivot Acquisition issued 7,455,000 broker compensation options in relation to the Company's Debenture issue. The options can be exercised for C$0.40 per share and expire on March 25, 2015. The fair value allocated to the warrants was $3,000, which was recognized as an expense in fiscal 2011.

Options issued to directors and officers

On June 29, 2011, the Company granted share options to its directors and officers to acquire an aggregate of 100,000 common shares (after consolidation of 8 to 1) at a price of C$0.80 per share exercisable until June 29, 2021. Upon the completion of the RTO on March 25, 2013 which qualified as a qualifying transaction, the expiry date of the options has been changed to March 25, 2014. As the options remain exercisable after the completion of the RTO, the fair value of the options at the date of the RTO was included as part of the consideration transferred by Pivot Acquisition in the RTO. On March 25, 2013, the fair value of the options was estimated at C$19 using the Black-Scholes option pricing model. The assumptions used were as follows: risk-free interest rate of 1.03%, dividend yield of 0%, volatility rate of 60% and expected life of one year. On March 25, 2014, the options had not been exercised, and have expired accordingly.

(unless otherwise noted all amounts are in thousands of U.S. dollars)

Options issued to agents

On June 29, 2011, the Company granted share options to agents (non-employees) to acquire an aggregate of 25,000 common shares (after consolidation of 8 to 1) at a price of C$0.80 per share exercisable until June 29, 2013. As the options remain exercisable after the completion of the RTO, the fair value of the options at the date of the RTO was included as part of the consideration transferred by Pivot Acquisition in the RTO. On March 25, 2013, the fair value of the options was estimated at C$3 using the Black-Scholes option pricing model. The assumptions used were as follows: risk-free interest rate of 0.96%, dividend yield of 0%, volatility rate of 60% and expected life of 0.29 year. On June 29, 2013, the options had not been exercised, and have expired accordingly.

Fair values

The fair value of all other financial instruments carried within the Company's consolidated financial statements is not materially different from their carrying amount.

The following table presents information related to the Company's financial assets and liabilities measured at fair value on a recurring basis and the level within the guidance hierarchy in which the fair value measurements fall as at June 30, 2014 and December 31, 2013:

	Fair value as at June 30, 2014			
Description	Level 1	Level 2	Level 3	Total
Contingent consideration	-	-	2,322	2,322
Interest rate swap	-	738	-	738
	-	738	2,322	3,060

	Fair value as at December 31, 2013			
Description	Level 1	Level 2	Level 3	Total
Contingent consideration	-	-	10,894	10,894
	-	-	10,894	10,894

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. Derivative financial instruments are recorded in Level 2. The fair value of the Swap is calculated as the present value of the estimated future cash flows based on observable yield curves.

If one or more of the significant inputs are not based on observable market data, the instrument is included in Level 3. Contingent consideration payable is the only instrument recorded as Level 3 as the amount payable is not based on observable inputs. Management estimates the fair value of contingent consideration internally based on a discounted cash flow methodology. The fair value is determined by applying a fixed 18% discount rate.

Significant increases (decreases) in estimated annual revenue or changes in product margin in isolation could result in a significantly higher (lower) fair value of contingent consideration. If the revenue forecast used in the fair value determination of the contingent consideration was 5% higher or lower, this would have no impact on the fair value of the contingent consideration at June 30, 2014.

(unless otherwise noted all amounts are in thousands of U.S. dollars)

The fair value of the contingent consideration was calculated using forecasts based on financial plans prepared by management covering the periods under agreement, using a discount rate of 18%. The Company recorded a charge (recovery) of $536 and $(9,428) related to the change in fair value of the contingent consideration for the three month periods ended June 30, 2014 and 2013, respectively. The Company recorded a charge (recovery) of $4,295 and $(14,367) related to the change in fair value of the contingent consideration for the six month periods ended June 30, 2014 and 2013, respectively.

There have been no transfers among any levels during the period.

14. RELATED PARTY DISCLOSURES

In addition to the asset purchase agreement with Old ACS, a subsidiary of the Company has entered into an administrative services agreement, a license agreement and a distribution agreement with Old ACS commencing with the date of the asset purchase. The administrative services agreement commits the Company to performing certain administrative functions on behalf of Old ACS. The total amount collected from Old ACS for these shared administrative services was $395 for each of the three month periods ended June 30, 2014 and 2013. The total amount collected from Old ACS for these shared administrative services was $790 for each of the six month periods ended June 30, 2014 and 2013. The license agreement permits Old ACS to license from the Company certain of the intellectual property obtained by the Company in the asset purchase. A member of key management of the Company has significant influence over Old ACS, resulting in a related party relationship.

The Company is deemed to have the primary exposure to the significant risks and rewards associated with sales by Old ACS to its third-party customers, and thus the Company is the principal and Old ACS is the agent of the Company with respect to such sales. The Company recognizes these revenues on a gross basis.
