

Control Your Manufacturing Process

A total ERP software solution - on-premises or in the cloud

Integrated Financials including Cash Management

Seamlessly capture and monitor the flow of information from quote to cash to financials without duplicating data input. View leading indicators and dashboards such as projected cash management.

Mobile Warehouse

Manage your shop from your Android phone. Includes material handling, inventory management, job data collection, and receiving and shipping. Print RFID labels and manage inventory.

Personalized Dashboards and Reports

Using drag and drop, easily create personalized dashboards that can be displayed in multiple locations in the factory to manage the shop floor. You can display every possible KPI with your shop's real-time data.

Additional Features

- Quoting/Estimating
- Inventory Management
- Manufacturing Resource Planning (MRP)
- Customer Resource Management (CRM)
- Human Resource Management (HR)
- Project Management
- Lot/Serial Number Traceability
- Preventive Maintenance
- Thousands of Add-On Functions and Reports

AI-Based Planning and Scheduling

Generate and view advanced AI based graphical production schedules. Quickly resolve bottlenecks and scheduling issues from any location.

Quality Control

Seamlessly integrate quality processes including ISO9001 and AS9100. Manage RMAs, NCMRs, and CPARs in an integrated system with no duplicate data entry.

Integrations

Integrate with QuickBooks, Sage Accounting, Metamation, SigmaNEST, EDI, custom integrations, API's, and more.

Paperless/Lean Production Control

Employ lean production techniques for data collection, material handling, and job costing using onsite Kiosks. Go green with paperless initiatives.

Automation

Automate the factory with auto-generated pick lists, inventory cycle counting, shipping, and notifications.

*Integrated Data.
Informed Decisions.*
