

These license terms are an agreement between Globlue Technologies LLC (Licensor) and the end user (Licensee). Please read them. They apply to the Program named above, which includes the media on which you received it, if any. The terms also apply to any Licensor updates, supplements, internet-based services, and support services.

ARKHOS TLOxp i2 connector is an i2 software component developed by Globlue that allows TransUnion's (Globlue Business Partner) TLOxp® solution customers to directly access TLOxp data therefrom and apply IBM's i2 proprietary intelligence link analysis algorithms.

Globlue is an IBM Business Partner, authorized to design, develop, and enhance i2 software using IBM's i2 software development kit (a restrict code). The software developed by Globlue does not replace IBM's core software nor violates any existing software warranty and/or support agreement between the licensee and IBM.

Licensee agrees to comply with all applicable United States of America federal, state and local laws including, but not limited to, the Fair Credit Reporting Act (15 U.S.C. Section 1681 et seq.), the Gramm-Leach-Bliley Act (15 U.S.C. Section 6801 et seq.) ("GLBA") and the Driver's Privacy Protection Act (18 U.S.C. § 2721-2725) and related state laws (together, "DPPA"). Without limiting the foregoing in any way, to the extent Personally Identifiable Information, as such term is defined by applicable privacy and information security laws ("PII"), is delivered to Licensee via ARKHOS TLOxp i2 Connector, Licensee acknowledges that it is subject to applicable laws restricting the collection, use, disclosure, processing, and free movement of that PII, which laws include, but are not limited to, the GLBA and DPPA.

All transactions request executed by the Licensee through ARKHOS TLOxp i2 Connector are encrypted, secured transmitted, and compliant with applicable TransUnion security policies. A transaction takes place when Licensee's machine sends an electronically information request (*through ARKHOS TLOxp i2 Connector*) to TransUnion's TLOxp solution, and TransUnion's TLOxp solution replies back to Licensee's machine with the request results. Such results can be visualized and analyzed through ARKHOS TLOxp i2 Connector using IBM i2 Analyst's Notebook features. No Personally Identifiable Information (PII), "customer data", is shared, stored or sent to Globlue when utilizing the Program. Transaction counts are shared with Globlue for billing purposes, that is, the number and type of transactions performed within a giving period of time.

## 1. General Terms

## 3. Agreement Structure

This Agreement includes General Terms, the LI, and the PoE and is the complete agreement between Licensee and Licensor regarding the use of the Program. It replaces any prior oral or written communications between Licensee and Licensor concerning Licensee's use of the Program.

## 4. License Grant

The Program is owned by Globlue Technologies LLC, and is copyrighted and licensed, not sold.

Globlue hereby grants to the Licensee, under all Globlue's intellectual property rights, a non-exclusive license to: 1) use the Program up to the Authorized Use specified in the PoE, 2) make and install copies to support such Authorized Use, and 3) make a backup copy, all provided that:

- a. Licensee has lawfully obtained the Program and complies with the terms of this Agreement;
- b. The backup copy does not execute unless the backed-up Program cannot execute;
- c. Licensee reproduces all copyright notices and other legends of ownership on each copy, or partial copy, of the Program;
- d. Licensee ensures that anyone who uses the Program (accessed either locally or remotely) 1) does so only on Licensee's behalf and 2) complies with the terms of this Agreement;
- e. Licensee does not 1) use, copy, modify, or distribute the Program except as expressly permitted in this Agreement; 2) reverse assemble, reverse compile, otherwise translate, or reverse engineer the Program, except as expressly permitted by law without the possibility of contractual waiver; 3) use any of the Program's components, files, modules, audio-visual content, or related licensed materials separately from that Program; or 4) sublicense, rent, or lease the Program; and
- f. For purposes of this Item "f," a "Supporting Program" is a Program that is part of another Globlue Program ("Principal Program") and identified as a Supporting Program in the Principal Program's LI. (To obtain a separate license to a Supporting Program without these restrictions, Licensee should contact the party from whom Licensee obtained the Supporting Program.)

This license applies to each copy of the Program that Licensee makes.

### **3.1 Updates, Fixes, and Patches**

When Licensee receives an update, fix, or patch to a Program, Licensee accepts any additional or different terms that are applicable to such update, fix, or patch that are specified in its LI. If no additional or different terms are provided, then the update, fix, or patch is subject solely to this Agreement. If the Program is replaced by an update, Licensee agrees to promptly discontinue use of the replaced Program.

If the Licensee reports that the Software does not provide the functions described in the Documentation then Globlue shall at its sole discretion, rectify the software, issue a patch or other work around.

### **3.2 Fixed Term Licenses**

License term is defined in accordance with the term of Licensee's separate agreement with TransUnion for the TLOxp solution. Licensee's license can be renewed at the end of the fixed term in accordance with the new TLOxp subscription agreement terms agreed to between TransUnion and Licensee.

### **3.3 Term and Termination**

This Agreement is effective until terminated.

Globlue may terminate Licensee's license if Licensee fails to comply with the terms of this Agreement.

If either party terminates the license for any reason, Licensee agrees to promptly discontinue use of and destroy all of Licensee's copies of the Program. Any terms of this Agreement that by their nature extend beyond termination of this Agreement remain in effect until fulfilled, and apply to both parties' respective successors and assignees.

## **5. Charges**

The use of the Program is free of charge for the licensee when supported by a separate subscriber agreement for the TLOxp solution between Licensee and TransUnion. The cost of providing the Program to Licensee is based upon the use of the program in connection with such separate subscriber agreement, which is specified in the PoE. Globlue does not give credits or refunds for charges already due or paid to TransUnion for TLOxp.

If Licensee wishes to increase its Authorized Use, Licensee must formally request an increase from Globlue or TransUnion in advance in writing. Additional licenses shall be issued in accordance with existing contractual terms.

## **6. Taxes**

If any authority imposes on the Program a duty, tax, levy, or fee, then Licensee agrees to pay that amount, as specified in an invoice, or supply exemption documentation. Licensee is responsible for any personal property taxes for the Program from the date that Licensee obtains it. If any authority imposes a customs duty, tax, levy, or fee for the import into or the export, transfer, access, or use of the Program outside the country in which the original Licensee was granted the license, then Licensee agrees that it is responsible for, and will pay, any amount imposed.

## **7. Program Transfer**

Licensee may transfer the Program and all of Licensee's license rights and obligations to another party only if that party agrees to the terms of this Agreement. If either party terminates the license for any reason, Licensee is prohibited from transferring the Program to another party. Licensee may not transfer a portion of 1) the Program or 2) the Program's Authorized Use. When Licensee transfers the Program, Licensee must notify Globlue and provide a hard copy of this Agreement to the recipient of the Program, including the LI and PoE. Immediately after the transfer, Licensee's license terminates and Globlue shall issue a new PoE for the new Licensee.

## **8. Warranty and Exclusions**

Globlue warrants that the Program, when used in its specified operating environment, will conform to its specifications. The Program's specifications, and specified operating environment information, can be found in documentation accompanying the Program installation guide or other information published by Globlue (such as an announcement letter). Licensee agrees that such documentation and other Program content may be supplied only in

the English language, unless otherwise required by local law without the possibility of contractual waiver or limitation.

The warranty applies only to the unmodified portion of the Program. Globlue does not warrant uninterrupted or error-free operation of the Program, or that Globlue will correct all Program defects. Licensee is responsible for the results obtained from the use of the Program.

Licensor warrants that to a reasonable certainty the Platform does not contain any computer viruses, Trojan horses, time bombs, cancelbots or other computer programming routines (collectively, "Viruses") that have the effect (whether by intent or not) of damaging, detrimentally interfering with, surreptitiously intercepting or otherwise causing the misappropriation of any Licensee data.

## 9. Support and Maintenance

During the Warranty Period, Licensor provides continuous support and software updates, aimed to enhance software capabilities as well as correct any malfunctioning behavior. Licensor also provides Licensee with access to Globlue knowledge center containing information on known Program defects, defect corrections, restrictions, and bypasses at no additional charge. Consult Globlue's Software Support Center for further information at [www.support.globlue.com](http://www.support.globlue.com).

Licensee shall report to Licensor any issues encountered during the Program utilization by submitting a ticket to Licensor via Software Support Center or by email. If Licensor cannot repair or replace the Program during the Warranty Period and the problem cannot be resolved with information available in Globlue's knowledge center, Licensee may uninstall and return the Program and its PoE to Licensor. After returning the Program, Licensee's license terminates.
