

## Learning Tasks Overview

The ability to assign tasks for student completion in Compass is managed via Learning Tasks. Students can be assigned assessment pieces, homework and general assignments. Each task can include detailed requirements, resources, grading, feedback and due dates.

Students will complete a written text response that uses content from the novel "Holes" and addresses the following topic prompt:

"Explain the relationship between Stanley Yelnats and his family. How does this relationship differ from the other kids shown at camp? In what way could Stanley's family relationship have been better?"

## Managing Learning Tasks

Staff can generate/manage Learning Tasks via their class or subject page within their Compass portal.

Learning Tasks can be created from scratch or via a Learning Task Template.
