## Home Health & Care Management

### • Independent Living Personal Care Packages •

**ClubCare** is our in-house Home Health Agency. Our team of caregivers provide personal care for our Residents in their homes. **ClubCare** offers many types of services that can be customized to the particular needs and circumstances of our Residents. This may be as simple as assisting with Medication Management or as complex as providing 24-hour care on a temporary or permanent basis.

**ClubCare** is introducing a new service designed to benefit our Residents who require an array of different personal and simplistic services administered several times per day. **ClubCare** is offering two different monthly packages of our most popular services for a flat rate. For some of our Residents, these packages will allow them to get home from the hospital faster than otherwise possible. Others may use these packages to maintain their independence in their home.

As a part of this program, **ClubCare** personnel will be visiting the Residents homes several times per day to provide the contracted services outlined below. This program does not replace care for those Residents who require around the clock care or those who struggle with incontinence. The **ClubCare** Director will meet with each Resident to assess the level of care they require and ensure that this program will meet their needs. *A resident must be appropriate and safe when alone in the residence and without the assistance of **ClubCare** personnel in order to be eligible to participate.*

### Personal Care Package 1 - \$1800 Per Month

#### 1. Morning Care Daily:

- Grooming: Includes hair care, shaving, dental care, and sponge bathing
- Dressing: Includes assistance with clothing and the application of TED hose if required
- Breakfast Serving and Preparation: Includes either the delivery of items from the Jacaranda Trace continental breakfast or the preparation of simple breakfast items such as cereal, toast, oatmeal and eggs.
- Bed Making
- Trash Removal

2. **Bathing Assistance:** ClubCare personnel will assist the Resident with showering up to two times per week. The Resident will supply their own soap, shampoo, conditioner, and other bath products.

3. **Personal Laundry Service:** Includes washing one load of clothing per week. Sheets and towels will be washed by the Housekeeping staff and they will remake the bed. If you are not already receiving our separate housekeeping service, or have your own service, we will discuss adding that service.

4. **Medication Reminders:** ClubCare personnel will visit the Residents home up to 4 times per day and remind the Resident to take their required medication.

#### 5. Dining Services

- Meal Escort Service: ClubCare personnel will escort the Resident to and from Jacaranda Trace Dining venues up to 3 times per day for breakfast, lunch and dinner. ClubCare Staff will not remain with the Resident during meal times.
- Meal Delivery Service: the Resident may choose to have the Dining Staff deliver lunch or dinner during regular hours for no additional charge.
