

Health Care Professionals and Services

When you have a health-related setback, or if you just need to see a healthcare professional, you want to have total control of who you choose to use. However, Jacaranda Trace's philosophy is to get you home as quickly as possible if you are in a situation that requires recovery. With that concept in mind, we have a variety of healthcare professionals that provide their service on our campus. These include doctors, therapists, home care nurses, and CNA's. We have strong relationships with those whom we allow to be part of our program, and have complete confidence they will serve our Residents well. Included in your Club fee is access to our Community Nurse who is happy to take your blood pressure or help you with health issues you may experience.
