Payment and Submission

Pay Application Fee

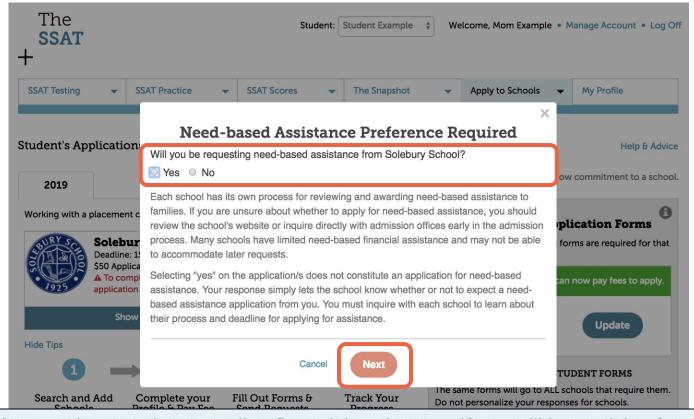

Once your student profile is complete, you can begin sending your application to schools. You do not need to wait until the other pieces of your application are complete. You want schools to be aware of your application as soon as possible.

Click "Pay Fee Now" for the application you are ready to submit.

Applying for Aid?

Answer the question regarding financial assistance. If you will be applying for financial aid consideration, you must let schools know. Checking "Yes" here does not constitute an application for assistance. This simply lets the school know they will be receiving your separate application for financial aid in accordance with their outlined policy and deadlines.

Monitor the Status of your Applications

 Each application has a progress bar showing how close it is to completion. Make sure you reach 100% for each application before the deadline the school has listed as their application due date. When in doubt about the requirements of a school you are considering, you can always consult the school's website or contact their admission office.

Monitor the Status of your Applications

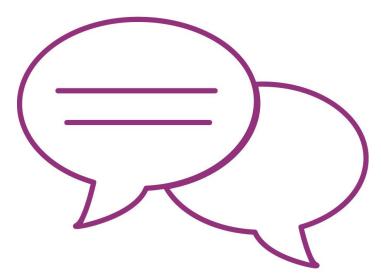

Remember, your application IS NOT SENT to a school until you
 PAY THE FEE to submit your application. Your application does not
 have to be complete before submitting the fee; you just need to have
 your student profile completed. Once you've paid the fee, the other
 pieces of the application will be sent to the admission office as soon
 as they are completed.
