SPYGLASSMTG

Is Office 365 Right for My Business?

Spyglass Can Help. Free ½ Day Workshop.

Many businesses, of all sizes, are asking this question because of the cost savings that an online email, messaging, and collaboration solution can provide. These organizations also want to understand the impact it will have as well as what it would take to get there. Spyglass certified technical consultants are helping many businesses explore and then implement this transition seamlessly. Experts within our specialized Microsoft practice area are available to help review your current environment and to help you plan and execute your move to Office 365 with confidence.

What's included in Office 365?

- Business-class email
- Instant messaging and video conferencing
- Team collaboration and document sharing
- Familiar Office applications & experience

Office 365 is not a one-size-fits-all solution. There are multiple plans available to fit different company sizes and needs. Spyglass can help you acquire, implement and support exactly the right solution for your business.

Highlights

- Understand what Office 365 has to offer through a demonstration of core capabilities
- Gain clarity as to how Office 365 will affect the business
- Recognize how to prioritize and roadmap the implementation of the various elements of Office 365
- Determine how best to integrate Office 365 with your on-premises environment including Single Sign On
- Discover how best to avoid a false start and to mitigate project risk
- Understand when to use which Office 365 service to drive the best outcomes

Office 365

We'll come prepared to answer your questions, including:

- Is Office 365 the right choice for my business?

- How long does it typically take to deploy Office 365?

- What parts of Office 365 should be leveraged when?

- How should I plan and prioritize efforts regarding on-premises, cloud, and hybrid environments?

- Will Office 365 still meet my regulatory and security requirements?

- Will Office 365 help me to reduce my IT costs while still providing me with the stability and flexibility I need?

- How should I get started?

A few ways we can help your business:

- Providing users access to email, information, and each other from anywhere

- Increased stability for critical user productivity systems without having to manage patches and updates

- SharePoint, Teams, and OneDrive to facilitate document and knowledge sharing

- Introducing Social networking for the enterprise

- Mobile access to Outlook, OneDrive, Teams, and Yammer

- Understanding Office 365 applications etiher through Office Web Apps or on the desktop

- Decreasing complexity and staffing demand
