

# Positive Mindsets Workshop *for Managers*

## Promoting positive mindsets in teams

People in Exceptional Teams aspire to keep their thoughts, words and actions positive. They recognise that their mood and behaviour is contagious and strive to be a positive influence for others. They set high standards of performance and have high expectations of results that sees them strive and thrive in a team environment.

As the person with the biggest impact upon mindsets within a team, it's imperative that a team leader not only promotes positive mindsets, but 'walks the talk' as well. This workshop will show you how.

Participants will learn how to:

- Promote positive thinking and reduce negativity in teams.
- Harness the power of words by ensuring people use only constructive language.
- Encourage people LIFT their standards and expectations of results, and to support their team-mates to do the same.
- Create energy and momentum by creating catalysts for positive action.
