Effective Advising: Reducing Implicit Bias When Working with Students

Participation and Interaction

Agenda

Reducing Implicit Bias When Working with Students

- Welcome
- Resources from Texas OnCourse
- Guest speaker
- Dr. Bentley L. Gibson, associate professor of psychology, Georgia Highlands College
- Megan Guidry, counselor, Granbury ISD
- Q & A

Introductions

Lara Gueguen, Assistant Director of Program Implementation

Introductions

Samantha Gonzalez, Content and Resources Program Manager

Introductions

**Dr. Bentley L. Gibson, Associate Professor of Psychology,
Founder/The Bias Adjuster, LLC.**

Introductions

Texas OnCourse Fellow
Megan Guidry, Granbury ISD

ABOUT TEXAS ONCOURSE

Texas' definitive source for college and career planning

TEXAS  NCOURSE

A group of diverse middle and high school students are sitting on a wooden bench in a classroom or library setting. They are engaged with technology; some are using laptops, while others are looking at tablets or smartphones. The image has a soft, blue-tinted overlay, giving it a modern, digital feel. The students are dressed in casual attire, and the background is slightly blurred, focusing attention on the students and their interaction with technology.

Texas OnCourse Academy Modules

Postsecondary Pathways

The screenshot displays the Texas OnCourse Academy dashboard. At the top, the 'TEXAS ONCOURSE' logo is on the left, a search bar is in the center, and the user's name 'Samantha Gonzalez' with a profile icon is on the right. Below the header, there are three tabs: 'Academy' (selected), 'MiddleGalaxy', and 'DataDive'. The left sidebar contains a 'Dashboard' section with links to 'Explore Modules' and 'Module Directory'. The main content area is divided into several sections. The 'LAST UNIT VISITED' section shows '01 FAFSA Preparation' with a 'CONTINUE' button. The 'NEW CONTENT' section lists 'ApplyTexas', 'SAT', and 'Texas Success Initiative Assessment (TSIA)', each with an 'Explore Module' button. The 'MY PROGRESS' section features a grid of modules, each with a star icon and a badge icon. The 'Postsecondary Pathways' module is highlighted with a red border. Other modules in the grid include 'Financial Aid', 'Transition Advising', 'Advising Highly Mobile Populations', and 'Middle School College and Career'. Below the grid, there is a 'Specialties' section with a 'Career Pathways' module. At the bottom right, there is a button that says 'VIEW MY BADGES AND CERTIFICATES'. The bottom left corner contains links for 'Where are my badges?', 'Support & Feedback', 'Web Accessibility', and 'Glossary'.

Four Tools for Interrupting Implicit Bias

By Zaretta Hammond

- The author of *Culturally Responsive Teaching & The Brain*, Zaretta Hammond, wrote the blog post, [Four Tools for Interrupting Implicit Bias](#) on her website.

Four Tools for Interrupting Implicit Bias

By Zaretta Hammond

“An important part of being culturally responsive is the ability to build trusting relationships with diverse students and to validate their experiences. If you are genuinely validating them then that means you don’t trivialize bias. That means as culturally responsive educators we educate ourselves about implicit bias – how it operates and what we can do to interrupt it.”

How to Overcome Our Biases? Walk Boldly Toward Them

Ted Talk by Vernā Myers

- How to overcome our biases? Walk boldly toward them
- In this video, Myers speaks about acknowledging biases and addressing ways you can change them.

EFFECTIVE ADVISING: UNDERSTANDING REDUCING IMPLICIT BIAS WHEN WORKING WITH STUDENTS

Presented by: Dr. Bentley L. Gibson
Webinar for Texas OnCourse

Goals of Today's Session

- Develop an awareness of their own implicit bias
- Learn about how factors such as personality and specific social conditions (i.e. stress) impact implicit bias
- Understand the ways in which implicit bias can impact the behaviors of well-intentioned individuals and that few of us are immune to society's deeply rooted social stereotypes
- Understand the impact of implicit bias on work practices in academia (i.e. virtual counseling and advising)
- Understand how to reduce and control implicit bias and achieve positive intergroup counseling and advising experiences

KEY DEFINITIONS

- **Ism** – Prejudice and/or discrimination on the basis of specified attributes (racism, sexism, ageism)
- **BIAS** – The evaluation of one group and its members relative to another group

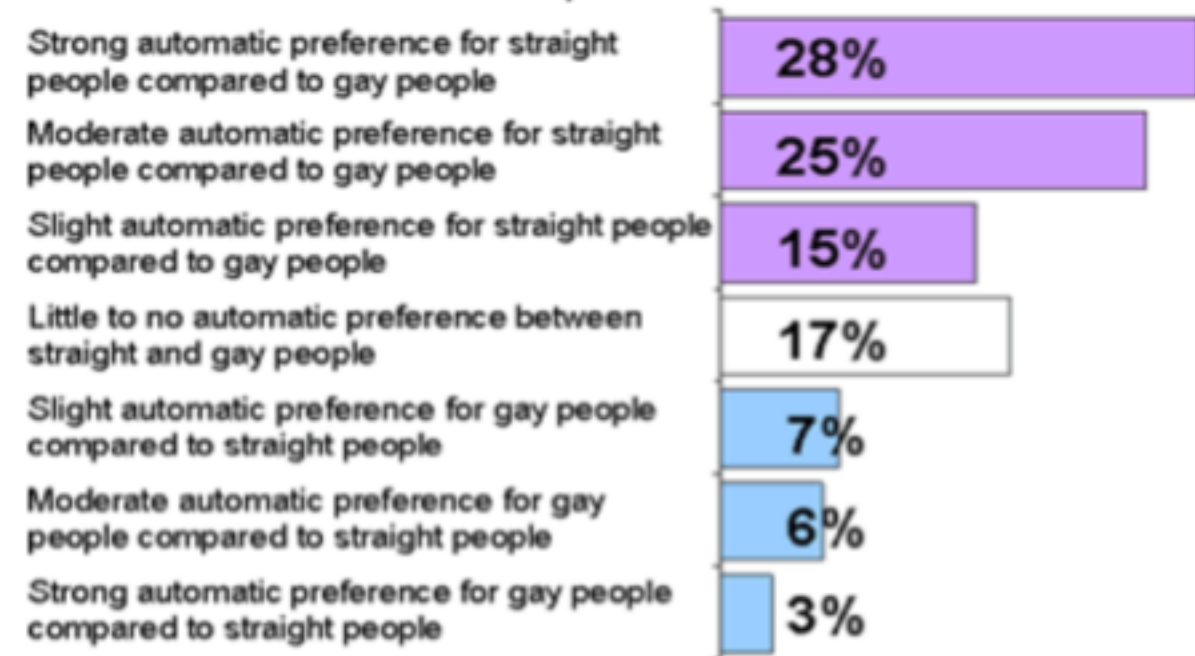

RACE IAT DISTRIBUTION

WHY ARE YOU HERE?

WHAT IT MEANS TO BE AN ALLY

Being an ally means taking on a struggle as your own, standing up, even when you feel scared, and transferring the benefits of your insider group privileges to those who lack it without making it about you.

SOURCE: Adapted from Jennifer Brown Consulting.

CHANGE ATTITUDES.
CHANGE BEHAVIORS.
CHANGE DIRECTIONS.
CHANGE LIVES.
CHANGE POLICIES.
CHANGE VOICES.
BE AN ALLY.
BE THE CHANGE.

IMPACT ON CAREER CHOICES

Children, adolescents, and adults implicitly associate men with higher status in the workplace and with math and science

Though boys are perceived to be better than girls in math, research attributes this myth to gender discrimination rather than gender differentiation.

GENDER BIAS CAREERS

TABLE III. Mean ratings for preference ratings ascribed by males and females to the 21 occupational titles (collapsed across age)

Occupation	Mean rating		Mann-Whitney <i>U</i> -test		
	male	female	<i>u</i> obt.	<i>n</i> 1; <i>n</i> 2	<i>p</i> -value
Aeroplane pilot	3.49	2.28	20999.50	342; 247	< 0.0001*
Air traffic controller	2.68	1.94	26268.50	339; 247	< 0.0001*
Artist	3.11	3.27	39146.50	341; 245	n.s.
Building designer	3.26	2.55	27721.00	338; 246	< 0.0001*
Carpenter	2.62	1.81	26283.00	340; 247	< 0.0001*
Dancer	1.78	3.53	13933.00	338; 246	< 0.0001**
Doctor	2.68	2.88	38056.00	340; 246	n.s.
Farmer	1.97	1.77	37852.00	341; 248	< 0.05*
Firefighter	3.13	2.43	28619.00	342; 247	< 0.0001*
Hairdresser	2.20	3.37	20662.00	340; 243	< 0.0001**
Judge	2.47	2.44	41371.00	341; 244	n.s.
Librarian	1.64	2.05	32682.50	342; 247	< 0.0001**
Lorry driver	2.18	1.63	31098.00	342; 248	< 0.0001*
McDonald's™ worker	2.62	2.67	40825.50	341; 245	n.s.
Nursery school teacher	1.80	3.63	12178.00	340; 246	< 0.0001**
Police officer	2.93	2.70	37220.50	342; 244	< 0.05*
Scientist	2.80	2.28	32745.00	342; 247	< 0.0001*
Secretary	1.94	3.02	18927.50	338; 247	< 0.0001**
School teacher	2.16	3.10	24071.00	341; 246	< 0.0001**
Shop assistant	2.52	2.96	31931.00	340; 248	< 0.0001**
TV repairer	2.18	1.64	29415.00	342; 248	< 0.0001*

*indicates traditional masculine occupation ascribed higher preference ratings by boys (*n* = 9).

**indicates traditional feminine occupation ascribed higher preference ratings by girls (*n* = 7).

HOW IMPLICIT BIAS IMPACTS PERCEPTIONS OF STUDENTS

- Same behaviors punished more harshly and viewed as more troubling in boys and children of color
- Automatic association between race and aggression for identical behaviors of 5 year old's
- Lower expectations and viewed as less likely to succeed as early as elementary school
- Less likely to be recommended for gifted and higher level courses and more likely to be placed in remedial courses

HOW IMPLICIT BIAS IMPACT BEHAVIORS?

- Teacher student relationships and their connection to the racial achievement gap (Bergh, et al., 2010)
- More predictive of interracial behaviors than self-reported attitudes (McConnell & Leibold, 2001; Greenwald, Poehlman, Uhlmann, & Banaji, 2009)
- Impacts non-verbal behaviors (Dovidio, Gaertner, & Kawakami, 2002)
- More impact when we are busy, distracted, tired, and under pressure

People use the following as a method of non verbal communication:

- **Facial expression:** The human face uses a number of expressions on daily basis to express various feelings and emotions, like happiness, [stress](#), sadness, fear, surprise and so on.
- **Body postures:** It includes communication through your posture, attitude and delicate movements. People get affected and influenced; by the way one sits, walks, and stands and uses various parts of the body to convey a message.

- 
- **Gestures:** Gesturing is the way we use our body parts in the communication process, like using the hands at the time of greeting, giving a thumbs up to wish someone luck and so on. Different gestures have different meaning in different cultures; therefore one has to be careful while using them.
 - **Eye contact:** Eyes can speak a lot, the way one looks at someone in a communication can convey whether one is interested, unreceptive, attentive or confused. It is very import to maintain the flow of the communication.
 - **Touch:** Touch is also an import way of conveying ones messages, like a tight handshake shows warmth and interest; a hug, a light tap on the shoulders convey different messages.
 - **Space:** Space, the distance between two people when they communicate is an important aspect conveying message of intimacy, affection and domination.
 - **Tone of voice:** The way one speaks, the tone of a person also influences the communication process, it symbolises empathy, anger, frustration and other such emotions.

How it Works

Stereotype Threat

The cognitive process model of stereotype threat

REFRAIN FROM USING MICROAGGRESSIONS

MITIGATING BIAS IN VIRTUAL ADVISING

Be Mindful of the Times!

Biases That Can Peak During Virtual Interviews:

- Socio-economic status bias
- Hair Bias
- Gender Bias

SOCIAL DISTANCING AND BIAS

- Our biases lead us to social distance from outgroups (or negatively stereotyped groups)
- If not conscious and strategic, societal social distancing due to COVID-19 can increase biases

REDUCING IMPLICIT BIASES

- Diversity training seminars reduce implicit biases (Gibson, in prep; Rudman, et al., 2001)
- Effective strategies to use in diversity training (Lai, et al., 2014)

MITIGATING BIAS WHILE ADVISING

- Check your biases!
- Mentally reset before each student (remember the impact of stress on biases)
- Create a “safe space”
- Get to know your students' identities
- Increase openness, conscientiousness, and empathy

Bias Results

A person with blonde hair in a bun, wearing a plaid shirt and a tan backpack, is seen from behind, hiking on a dirt trail. The trail leads into a lush green valley with tall grass and wildflowers. In the background, there are steep, rocky mountains with patches of snow under a clear blue sky. The overall scene is bright and scenic.

Which Bias Test Did You Take?

A person with blonde hair in a bun, wearing a red and blue plaid shirt, is seen from behind. They are carrying a large tan backpack with brown straps and a black coffee cup in a side pocket. They are walking on a dirt trail through a lush green valley with wildflowers. In the background, there are steep, rocky mountains with patches of snow under a clear sky.

What Are Some Initial Reactions to Your Results?

A person with blonde hair tied in a bun, wearing a red and blue plaid shirt and a tan backpack, is seen from behind walking on a dirt trail. The trail leads into a lush green valley with mountains in the background. The image has a blue tint overlay.

Any Suggestions for Reducing Bias in Your Counseling and Advising Practice?

An aerial photograph of a dense green forest. A paved road with a yellow center line and white edge lines curves through the trees from the bottom left towards the top right. The text is overlaid on the lower half of the image.

Thank You
