Essential Duties and Responsibilities

- Examine patients, study their medical records and provide diagnosis.
- Provide medical solutions for preventing or treating a diverse range of chronic diseases such as diabetes, hypertension, obesity, hyperlipidemia etc.
- Inform patients about complementary health activities and treatments (appropriate diet and exercise).
- Collaborate with the community of providers in order to oversee all the clinical health of the patients in a cohesive manner.
- Oversee and supervise Nurse Practitioners and/or Physician Assistants.
- Maintains strict confidentiality related to company and patient information.
- Understands and follows safety and security procedures and practices preventative safety procedures as set forth by LifeDOC.

Qualifications

- Board certified without restriction in Endocrinology or Internal Medicine.
- Valid, current, and unrestricted State license and DEA license.
- Ability to work as a team member in a collaborative environment demonstrating mutual respect for colleagues, patients, and partners.
- A commitment to continuously improve the health and wellness of each patient.
- Experience with electronic medical records.

Benefits

- Competitive base salary with handsome bonus structure
- 50% of Medical insurance plan
- Access to dental and vision insurance
- Medical malpractice 100% covered
- Aggressive PTO package
