

ARE YOU READY TO BUILD STUFF?

INTRODUCING **VIRTUAL SHOP CLASS** – TEACHING KIDS BASIC BUILDING AND TRADE SKILLS VIA FUN DIY HOME PROJECTS

Generation T, powered by Lowe's is proud to present **Virtual Shop Class** – a series of free, live webinars that encourage kids to become future tradesmen and women. Presented on Facebook Live in partnership with She Built This City *every Tuesday, beginning at Noon, EDT*. Topics for the first eight episodes include:

May 5th

Intro to Shop Class!

In our first class, we'll cover some basic tools you'll need to start your toolset and show you how to safely use some of the basic tools such as hammers, screw drivers, saws and nails.

May 12th

Basic Carpentry 101 – Bee Pollinator

Carpentry is a skilled trade and a craft in which the primary work performed is the cutting, shaping and installation of building materials made from wood. In this lesson we'll show you the basics of carpentry and build your first project – a Bee Pollinator!

May 19th

Advanced Carpentry 201 – Dog Bowl Set

Building on the basic skills you learned in your first carpentry class, we'll dive a little deeper and use some advanced techniques to build something for the family pet - a dog bowl set from crates.

May 26th

Basic Plumbing Skills

Have you ever wondered how water flows through a house? Or how to fix a broken pipe? In this week's lesson we'll teach you a few of the basic skills needed to diagnose and learn how to fix pipes, and when you should call a plumber.

June 2nd

Do It Yourself (D) Bathroom

Want to help mom and dad come up with some fun ideas to reimagine and make your bathroom cool? In this lesson we'll show you the tools and skills needed to help fix and upgrade simple items in the bathroom (from paint, knobs, showerheads, vinyl cut & peel tiles).

June 9th

HVAC 101: 10 Steps to Learn, Troubleshoot, Maintain & Replace

Ever wondered how your house stays cool in the summer and warm in the winter? Learn the basics of HVAC heating, ventilation, air conditioning and understand how these vital systems help climate control your house.

June 16th

Drywall Repair

Ever wonder what your walls in your house are made of? Most of the time it's a substance called drywall. Learn how drywall installers mount drywall in homes and how you can repair drywall and paint it in just a few, quick steps!

June 23rd

Flooring & Tiling with Guest Hunter MacFarland
