Multi-Entity Management for Microsoft Dynamics GP

Extend Your ERP For Multi-Entities

Binary Stream

Real-time Consolidated Financials

Growing your company is good. However, facing the spiraling costs of maintaining your stretched accounting system can be challenging. Whether your firm is growing by acquisition or expansion, Multi-Entity Management (MEM) makes adding a new company to your accounting set-up a breeze.

Stop wondering how your company is really performing:

- Get real-time insight into your company's health with rolled-up financial reports across all your companies
- Single database gives ability to centralize the processing of payments, receipts, payroll invoicing, and purchase orders
- Can be deployed in the cloud, in a hosted environment or on-premise

Expertise in Microsoft Technologies

By developing entirely in Microsoft technologies, Binary Stream creates innovative solutions, added performance and security enhancements, while utilizing the same Microsoft Dynamics look and feel users know and trust. Our software development teams work in an agile framework for our Microsoft Dynamics add-ons. This enables us to deliver product releases regularly with iterative improvements.

"We were able to grow from 55 entities to 239 while saving $126,000 per year by eliminating user inefficiencies and downtime obstacles."

Bill Breitenbach IT Director, Signature Healthcare
