## SNP AG and NTTDATA Global Solutions enter into a Strategic Business Alliance

**Tokyo/Heidelberg, September 6, 2017 – SNP Schneider-Neureither & Partner AG, Heidelberg (Germany) has entered into a strategic partnership with Japan based NTTDATA Global Solutions for an innovative alliance in the Asia-Pacific region. The alliance will be offering software centric high automated transformation services delivering maximum value to consumers and organizations in the region.**

At the official signing ceremony in Tokyo, Dr. Andreas Schneider-Neureither, CEO SNP AG, said: “SNP has a clear strategic focus and we have been making major progress toward our strategic goal to become the global standard for software-based data transformation. Together with NTTDATA GSL as our partner, we are confident to increase our market relevance in Japan. Today, SNP has a significant presence in almost all key global economic regions and is accessible globally for the benefit of our clients. This new alliance brings tremendous value to our clients and partners throughout the business transformation lifecycle. Together with NTTDATA Global Solutions, SNP’s software and methodology will assist companies and organizations to make IT a highly adaptable enabler that substantially accelerates business development.

### About SNP

SNP helps companies transform business models and roll out new technologies. Its software and services make it easier to execute technical or commercial changes in global business applications.

Together, SNP’s CrystalBridge® and Transformation Backbone® with SAP LT constitute the world’s leading data transformation suite for automatically analyzing, applying and tracking changes in IT systems. They significantly improve quality while making transformation projects much faster and more cost-effective.

The SNP Group employs over 1,350 people worldwide. It is headquartered in Heidelberg, Germany and is planning to generate about 110 million EUR in revenue in 2017. It serves multinational companies in all industries. SNP was established in 1994, went public in 2000, and has been listed in the Prime Standard segment of the Frankfurt Stock Exchange since August 2014 (ISIN DE0007203705).
