

# Enable Your Organization to Host Virtual Events within 24 Hours!

## A 24-hour Accelerated Teams Deployment

With the unprecedented effects of COVID-19 affecting all aspects of our lives, we understand that organizations providing event services or relying on events for fundraising are trying to figure out how they can not only help their employees stay healthy and productive, but also ensure that they can continue their work during this time of social distancing. ProServeIT has prepared a 24-hour rapid deployment of Microsoft Teams (Teams) to help you host virtual events.

Contact us to enable your organization for virtual events within 1 day!

## Deliverables & Activities

Teams tenant setup with the licensing necessary to provide virtual services or events. Your clients can invite as many guests as they want.

Setup of Audio Conferencing so your clients and their guests can easily join by clicking a button or dialing in.

Teams user manual (including demo videos).

User training up to 2 hours on:  
How to create virtual events and invite people.  
Optional in-depth Teams training kit available at an extra charge.
