CLOUD SERVICE PROVIDER (CSP) PROGRAM FOR NONPROFITS & CHARITIES

April 2018

Cloud Service Provider (CSP) Program for Nonprofits

In today's world, donors, employees and beneficiaries of nonprofit organizations are requiring nonprofits to provide a similar technology experience to the one that the public or private sector is offering. ProServeIT can assist your nonprofit to upgrade to a Cloud-based IT environment, by helping you determine which Microsoft Cloud license is the best fit and implement that technology for you.

Microsoft Cloud Solutions and Pricing

Microsoft offers nonprofit pricing for many Microsoft Cloud solutions:

Microsoft Cloud Solution	Price (CAD/user/month)	Microsoft Cloud Solution	Price (CAD/user/month)
Office 365 Enterprise E1	Free	Advanced Threat Protection	$0.73
Office 365 Enterprise E3	$5.70	Microsoft 365 Business	$6.10
Office 365 Enterprise E5	$19.00	Microsoft 365 E3	$10.10

ProServeIT can work with you to:

Help you determine **if your organization qualifies as a nonprofit** (according to Microsoft standards).	Determine **which license would be the best fit** for your organization to implement.	Assess your current IT environment to **determine the best migration strategy.**
Assist with your migration to the new Cloud technology you've chosen.	Provide suggestions on how to **get the most out of your new investment**.	**Provide post-migration support** to ensure that your end users are comfortable with the new tools.

CSP Program Benefits

The latest cloud technology will help you **stay ahead of the curve.**	**Easier and more cost-efficient** options for your nonprofit organization.	**Better collaboration** and support capabilities for your remote workers.	**Easier to scale** up or down, as needed.	**Ability to make a greater impact in the causes** that are near and dear to your heart.

Why Work with ProServeIT?

ProServeIT is a Microsoft Gold Partner and a certified Cloud Service Provider (CSP), with expertise in assisting nonprofit organizations in selecting which licenses make the most sense for them, as well as supporting the implementation of Cloud technology. Using a certified CSP, you can be sure that your organization will not face potential data loss or downtime risks that often come with adopting new technology. Ensuring a smooth migration is what ProServeIT does best.

ProServeIT Key Differentiators

Our enhanced **'skip-the-queue' support model** enables nonprofit organizations to leverage our Microsoft Advanced Support team, with access into Microsoft engineering.

Flexible billing options, including no more Microsoft credit checks to add new licenses (which many nonprofit organizations run into) and the ability to receive an invoice (versus on a personal credit card).

A dedicated licensing specialist to help nonprofits navigate what can be an administrative headache around licensing.

A liaison into the Philanthropies and Tech for Social Impact teams at Microsoft to ensure **you have a voice at Microsoft.**
