Migrate up to 50 Servers to Azure for FREE!

Have you been thinking about moving from your on-premises environment to the Cloud? Are you interested in replacing that legacy environment that's holding you back from true digital transformation? Worried about how much a total migration to the Cloud might cost? Let ProServeIT help you migrate up to 50 servers to Azure for FREE!*

*Conditions:
- Servers migrated to Azure will be provided by ProServeIT to customers via the CSP program.
- Servers migrated to Azure are required to be hosted in a ProServeIT CSP subscription and placed under a ProServeIT Managed Services agreement for 36 months post-migration.
- Limited Time Offer.

What is Azure50 Migration?

We are here to help you to jumpstart your digital transformation by replacing your on-premises or legacy environment with Microsoft Azure. ProServeIT will use industry best practices and our own expertise to help you replace your current IT infrastructure with up to 50 Azure servers - including all the necessary analysis, assessment, design, and actual server migration.

Deliverables & Activities

During this engagement, ProServeIT's experienced team will:
• Conduct server and application analysis reporting to determine your Azure suitability.
• Provide an analysis report and our recommendations for migration.
• Work with you to determine the optimal Azure configuration and pricing scenario for your current environment.
• Integrate the networking from your legacy server environment to Azure.
• Build out your Azure environment based on best practices, with an emphasis on security.
• Migrate your servers to Azure, while maintaining co-existence to avoid down-time.
